The Emblem

The Emblem of the Rajiv Gandhi University of Health Sciences is a symbolic expression of the confluence of both Eastern and Western Health Sciences. A central wand with entwined snakes symbolises Greek and Roman Gods of Health called Hermis and Mercury is adapted as symbol of modern medical science. The pot above depicts Amrutha Kalasham of Dhanvanthri the father of all Health Sciences. The wings above it depicts Human Soul called Hamsa (Swan) in Indian philosophy. The rising Sun at the top symbolises knowledge and enlightenment. The two twigs of leaves in western philosophy symbolises Olive branches, which is an expression of Peace, Love and Harmony. In Hindu Philosophy it depicts the Vanaspathi (also called as Oushadi) held in the hands of Dhanvanthri, which are the source of all Medicines. The lamp at the bottom depicts human energy (kundalini). The script “Devahitham Yadayahu” inside the lamp is taken from Upanishath Shanthi Manthram (Bhadram Karnebhi Shrunuyanadev...), which says “**May we live the full span of our lives allotted by God in perfect health**” which is the motto of the Rajiv Gandhi University of Health Sciences.

SECTION I

Philosophy, Aims and Objectives

Philosophy

(Adapted from Indian Nursing Council)

Indian Nursing Council believes that:

Health is a state of well-being that enables a person to lead a psychologically, socially and economically productive life. Health is a right of all the people. Individuals, Families and communities have responsibility towards maintaining their health.

Nursing contributes to the health services in vital and significant way in the health care delivery system. It recognizes national health goals and is committed to participate in the implementation of National Health policies and programmes. It aims at identifying health needs of the people, planning and providing quality care in collaboration with other health professionals and community groups.

Scope of nursing practice encompasses provision of promotive, preventive, curative and rehabilitative aspects of care to people across their life span in wide variety of health care settings. Practice of nursing is based upon application of basic concepts and principles derived from the physical, biological, and behavioural sciences, medicine and nursing.

Nursing is based on values of caring and aims to help individuals to attain independence in self care. It necessitates development of compassion and understanding of human behaviour among its practitioners to provide care with respect, dignity and protect the rights of individuals & groups.

Undergraduate nursing programme is broad based education within an academic framework specifically directed to the development of critical thinking skills, competencies & standards required for practice of professional nursing and midwifery as envisaged in National Health Policy 2002.

The teachers have the responsibility to be role models and create learning environment that enables students to acquire inquiry driven, self directed learning and foster an attitude of life long learning.

Under graduate nursing education program prepares its graduates to become exemplary citizen by adhering to code of ethics and professional conduct at all times in fulfilling personal, social and professional obligations so as to respond to national aspirations.

Aim

The aim of the undergraduate nursing program is to:

- Prepare graduates to assume responsibilities as professional, competent nurses and midwives in providing promotive, preventive, curative, and rehabilitative services.
- Prepare nurses who can make independent decisions in nursing situations, protect the rights and facilitate individuals and groups in pursuit of health, function in the hospital, community nursing services, and conduct research studies in the areas of nursing practice. They are also expected to assume the role of teacher, supervisor and manager in a clinical / public health setting.

Objectives

On completion of the four year B.Sc. Nursing program the graduate will be able to:

1. Apply knowledge from physical, biological, and behavioural sciences, medicine including alternative systems and providing nursing care to individuals, families and communities.
2. Demonstrate understanding of life style and other factors, which affect health of individuals and groups.
3. Provide nursing care based on steps of nursing process in collaboration with the individuals and groups.
4. Demonstrate critical thinking skill in making decisions in all situations in all situations in order to provide quality care.
5. Utilize the latest trends and technology in providing health care.
6. Provide promotive, preventive, and restorative health services in line with the national health policies and programmes.
7. Practice within the framework of code of ethics and professional conduct, and acceptable standards of practice within the legal boundaries.
8. Communicate effectively with individuals and groups, and members of the health team in order to promote effective interpersonal relationships and teamwork.
9. Demonstrate skills in teaching to individuals and groups in clinical/community health settings.
10. Participate effectively as members of the health team in health care delivery system.
11. Demonstrate leadership and managerial skills in clinical/community health settings.
12. Conduct need based research studies in various settings and utilize the research findings to improve the quality of care.
13. Demonstrate awareness, interest and contribute towards advancement of self and of the profession.

(Schedule annexed to University Notification No. UA/SYN/ORD/B.Sc.(N)/32/2005-06 dated 08.08.2006)

Revised Ordinance Governing Regulations and Curriculum of Basic B.Sc. Nursing Degree Course - 2006

(as per Indian Nursing Council Guidelines of 2004, *vide letter from the Secretary, INC, No. 12-1/2004-INC dated 07.05.2005*)

SECTION – II REGULATIONS

1. Eligibility

1.1 Qualifying Examination

A candidate seeking admission to first Basic B.Sc. Nursing course:

- i) shall have passed two years Pre University examination conducted by Department of Pre-University Education, Karnataka State, with English as one of the subjects and Physics, Chemistry and Biology as optional subjects. The candidate shall have passed subjects of English, Physics, Chemistry and Biology individually and must have obtained a minimum of not less than 50% marks in Physics, Chemistry, Biology and English (PCBE) taken together in the qualifying examination. In respect of candidates belonging to Scheduled Castes, Scheduled Tribes or Other Backward Classes, the marks obtained in Physics, Chemistry, Biology and English taken together in qualifying examination be not less than 40% instead of 50% as above.

OR

- ii) shall have passed any other examination conducted by Boards /Councils/ Intermediate Education established by State Governments/ Central Government and recognised as equivalent to two year Pre University examination by the Rajiv Gandhi University of Health Sciences/Association of Indian Universities (AIU), with English as one of the subjects and Physics, Chemistry and Biology as optional subjects and the candidate shall have passed subjects of English, Physics, Chemistry and Biology individually and must have obtained a minimum of not less than 50% marks in Physics, Chemistry, Biology and English taken together in the qualifying examination. In respect of candidates belonging to Scheduled Castes, Scheduled Tribes or Other Backward Classes, the marks obtained in Physics, Chemistry, Biology and English taken together in qualifying examination be not less than 40% instead of 50% as above.

OR

- iii) In case of candidates from the stream of Vocational Higher Secondary Course conducted by the Board of Vocational Higher Secondary Examination, Kerala, the candidate shall have taken a minimum of 5 (five) subjects including Physics, Chemistry, Biology and English in addition to the vocational subject (*vide* RGUHS Notification No. RGUHS/SEF/EC.B.Sc.Nsg/191/2005-06 dated 18.05.2006.) and shall have passed the said examination in all the subjects individually and shall have obtained a minimum of not less than 50% marks in Physics, Chemistry, Biology and English taken together in the qualifying examination. In respect of candidates belonging to Scheduled Castes, Scheduled Tribes or Other Backward Classes, the marks obtained in Physics, Chemistry, Biology and English taken together in the qualifying examination be not less than 40% instead of 50% as above.

1.2 Age: The candidate should have completed 17 years on or before 31st day of December of the year of admission.

1.3 Candidate shall be medically fit.

2. Selection

Selection of the candidates should be based on the merit in the entrance examination held by University or competent authority.

3. Duration of the Course

Duration of the course shall be four completed years including clinical training of 24 weeks.

4. Medium of Instruction

English shall be the medium of for the course as well as for the examination.

5. Course of Study

Candidates shall undergo course of instruction in the following subjects. Details of Subjects and Distribution of Hours of Teaching in Theory and Practical from First to Fourth Year are given in the Tables 1 to 4. Particulars of clinical training posting is given in Table 5.

4. Child Health	145	3
5. Mental Health	95	2
6. Research Project	45	1
Total	1150	24
Hours		

Note:

1. Clinical training means 8 hours of integrated clinical duties in which 2 weeks of evening and night shift duties are included
2. Clinical training should be carried out as 8 hours per day @ 48 hours per week
3. Students during Clinical training will be supervised by nursing teachers
4. **Students will be eligible to appear in the Fourth year final examination only after completion of Clinical training.**

6. Attendance

A minimum of not less than 80 % attendance in theory and practical / clinical separately in each subject in each academic year is essential for appearing in the examination. A candidate pursuing in the course shall study in the college for the entire period as a full time student. No candidate is permitted to work in a hospital / nursing home / laboratory / college while studying this course. No candidate should join any other course of study or appear for any other examination conducted by this university or any other university in India or abroad during the period of registration. Each academic year shall be taken as a unit for calculating the attendance.

7 Internal Assessment

Regular periodic assessment shall be conducted throughout the course. Although the question of number of tests is left to the institution at least three tests in theory and practical each year be held. The test preceding the university examination may be similar to the pattern of university examination. Average of the marks of the three tests for theory and practical separately shall be sent to the university.

A candidate shall secure not less than 50% of marks prescribed for internal assessment in theory and not less than 50% marks prescribed in practical, separately, in each subject/paper to be eligible to appear in the university examination.

8. Schedule of Examination

The university shall conduct two examinations annually at an interval of not less than 4 to 6 months as notified by the university from time to time. A candidate who satisfies the requirement of attendance, progress and conduct as stipulated by the university shall be eligible to appear for the university examination. Certificate to that effect shall be produced from the Head of the institution along with the application for examination and the prescribed fee.

9. Scheme of Examination

First year

Table 6 (A): Distribution of Subjects and Marks for Internal Assessment and University Examination

Subject	Internal Assessment	University Examination	Total
Theory			
1. Anatomy & Physiology	40	100	140

6. Midwifery and Obstetrical Nursing		50	50	100
7. Community Health Nursing		50	50	100

Note: All practical examinations must be held in the respective clinical areas.
One internal and one external examiner should jointly conduct practical /clinical examination for each student.

9. Criteria for Pass: A candidate has to fulfill the following criteria:

For declaration of pass in any subject in the University examination, a candidate shall pass both in Theory and Practical/Clinical examinations components separately as stipulated below:

The Theory component consists of marks obtained in University Written paper(s) and internal Assessment (Theory). For a pass in theory, a candidate shall secure not less than 50% marks in aggregate i.e., marks obtained in written examination and internal assessment (theory) added together. For a pass in practical/clinical examination, a candidate shall secure not less than 50% marks in aggregate, i.e., marks obtained in university practical /clinical examination and internal assessment (practical) added together.

A candidate not securing 50% marks in aggregate in Theory or Practical/Clinical examination in a subject shall be declared to have failed in that subject and is required to appear for both Theory and Practical/Clinical again in the subsequent examination in that subject.

However, for a pass in English paper, a candidate shall secure not less than 40% of maximum prescribed marks in theory and 40% of maximum prescribed marks in internal assessment.

10. Declaration of Class: (Only in the final year examination)

- a) A candidate having appeared in all the subjects in the same examination and passed that examination in the first attempt and secures 75% of marks or more of grand total marks prescribed will be declared to have passed the examination with distinction.
- b) A candidate having appeared in all the subjects in the same examination and passed that examination in the first attempt and secures 65% of marks or more but less than 75% of grand total marks prescribed will be declared to have passed the examination in First Class.
- c) A candidate having appeared in all the subjects in the same examination and passed that examination in the first attempt and secures 50% of marks or more but less than 65% of grand total marks prescribed will be declared to have passed the examination in Second Class.
- d) A candidate passing a university examination in more than one attempt shall be placed in Pass class irrespective of the percentage of marks secured by him/her in the examination.

[Please note fraction of marks should not be rounded off for clauses (a), (b) and (c)]

11. Carry Over

1. A candidate failing in more than two subjects will not be promoted to the next year.
2. Candidate shall not be admitted to the subsequent higher examination unless the candidate has passed in all the papers in the previous examination.
3. If a candidate fails in theory or practical exam in a paper in that paper he/she has to re-appear for both in Theory and Practical.

12. Maximum number of attempts and maximum period for completion of the course

1. Maximum number of attempts permitted for each paper is three including first attempt.
2. The maximum period to complete the course successfully should not exceed eight years.

13. Award of degree

Must have 100 % attendance in each of the practical areas before award of degree.

14. Number of Examiners: One internal and one external examiner should jointly conduct

practical / clinical examination for each student.

14. Eligibility of Examiner

1. To be eligible to be an examiner, one should have passed M.Sc (N) in concerned subject, should have a minimum of three years teaching experience in a college of nursing and should be holding a full time post of Lecturer or above.
2. To be an examiner for Nursing Foundations course, a teacher should have passed M.Sc (N) in concerned subject, should have a minimum of three years teaching experience in a college of nursing and should be holding a full time post of Lecturer or above

SECTION III

COURSE DESCRIPTION

English

Placement – First Year

Time: Theory – 60 hours

Course Description: The Course is designed to enable students to enhance ability to comprehend spoken and written English (and use English) required for effective communication in their professional work. Students will practice their skills in verbal and written English during clinical and classroom experience.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	10	* Speak and write grammatically correct English	* Review of Grammar * Remedial study of Grammar * Building Vocabulary * Phonetics * Public Speaking	* Demonstrate use of dictionary * Class room conversion * Exercise on use of grammar * Practice in public speaking	* Essay type * Objective type * Fill in the blanks * Para phrasing
II	30	* Develop ability to read, understand and express meaningfully the prescribed text	* Read and comprehend prescribed course books	* Exercise on : ▪ Reading ▪ Summarizing ▪ Comprehension	* Essay type * Short Answers * Essay Types
III	10	* Develop writing skills	* Various forms of Composition ▪ Letter writing ▪ Note taking ▪ Precise writing ▪ Nurses notes ▪ Anecdotal records ▪ Diary writing ▪ Reports on health problems etc. ▪ Resume/CV	* Exercises on writing ▪ Letter writing ▪ Nurses Notes ▪ Precise ▪ Diary ▪ Anecdote ▪ Health problems ▪ Story writing ▪ Resume/CV * Essay Writing ▪ Discussion on written reports/ documents	* Essay type * Assessment of the skills based on the check list.
IV	6	*Develop skill in spoken English	* Spoken English ▪ Oral report ▪ Discussion ▪ Debate	* Exercise on: ▪ Debating ▪ Participating in Seminar, panel,	*Assessment of the skills based on the check list.

			<ul style="list-style-type: none">▪ Telephonic Conversation	<div>symposium</div> <ul style="list-style-type: none">▪ Telephonic Conversation	
V	4	*Develop skill in listening comprehension	* Learning Comprehension <ul style="list-style-type: none">▪ Media, audio, video, speeches etc	* Exercise on: <ul style="list-style-type: none">▪ Listening to audio, video tapes and identify the key points	* Assessment of the skills based on the check list.

Scheme of University Examination

There shall be one theory paper of three hours duration carrying 100 marks. Distribution of Type of Questions and Marks for English shall be as given under. There shall be no practical examination.

Type of Questions	No. of Questions	Marks	Sub-total
Long Essay (LE)	2	10	20
Short Essay (SE)	10	5	50
Short Answer (SA)	10	3	30
Total Marks			100

Anatomy

Placement – First year
Time: Theory – 60 hours

Course Description: The course is designed to enable students to acquire knowledge of the normal structure of various human body systems and understand the alterations in anatomical structures in disease and practice of nursing.

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
I	5	* Describe the anatomical terms, organization of human body and structure of cell, tissues, membranes and glands.	Introduction to Anatomical terms organization of the human body * Human Cell structure * Tissues – Definition, Types, characteristics, classification, location, functions & formation. * Membranes and glands – classification and structure Alterations in disease Applications and implications in nursing <i>Teaching Learning Activities</i> * Lecture discussion * Explain using charts, microscopic slides, Skeleton & torso * Demonstrate cells, types of tissues membranes and glands * Record book
II	6	* Describe the structure & function of bones and joints	The Skeletal System * Bones – types, structure, Axial & Appendicular Skeleton, * Bone formation and growth * Description of bones * Joints classification and structure Alterations in disease Applications and implications in nursing <i>Teaching Learning Activities</i> * Lecture discussion * Explain using charts, skeleton, loose bones and joins * Record book
III	7	* Describe the structure and function of muscles	The Muscular System * Types and structure of muscles * Muscle groups Alterations in disease Applications and implications in nursing <i>Teaching Learning Activities</i> * Lecture discussion * Explain using chart, models and films * Demonstrate muscular movements * Record book

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
IV	6	* Describe the structure & function of nervous system	The nervous System * Structure of neurologia & neurons * Somatic Nervous system <ul style="list-style-type: none"> Structure of brain, spinal chord, cranial nerves, spinal nerves, peripheral nerves * Autonomic Nervous System – Sympathetic, parasympathetic <ul style="list-style-type: none"> Structure, location Alterations in disease Applications and implications in nursing Teaching Learning Activities * Lecture discussion * Explain using models, charts, slides, specimens * Record book
V	6	Explain the structure & functions of sensory organs	The Sensory Organs * Structure of skin, eye, ear, nose tongue, (Auditory and olfactory apparatus) Alterations in disease Applications and implications in nursing Teaching Learning Activities * Lecture discussion * Explain using models, charts, slides, specimens * Record book
VI	7	Describe the structure & function of circulatory and lymphatic system	Circulatory and lymphatic system * The Circulatory System <ul style="list-style-type: none"> Blood – Microsoft structure Structure of Heart Structure of blood vessels- Arterial & Venous System Circulation: Systemic, pulmonary, coronary * Lymphatic System <ul style="list-style-type: none"> Lymphatic vessels & lymph Lymphatic tissues <ul style="list-style-type: none"> Thymus gland Lymph nodes Spleen Lymphatic tissues Alterations in disease Applications and implications in nursing. Teaching Learning Activities * Lecture discussion * Explain using models, charts, slides, specimens <ul style="list-style-type: none"> Record book

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
VII	5	* Describe the structure & functions of respiratory system.	The Respiratory System * Structure of the organs of respiration * Muscles of respiration: Intercostals and Diaphragm Alterations in disease Applications and implications in nursing. <i>Teaching Learning Activities</i> * Lecture discussion * Explain using models, torso, charts slides, specimens * Record book
VIII	6	* Describe the structure & functions of digestive system.	The Digestive System * Structure of Alimentary tract and accessory organs of digestion Alterations in disease Applications and implications in nursing Teaching Learning Activities * Lecture discussion * Explain using models, torso, charts slides, specimens * Record book
IX	4	* Describe the structure & functions of excretory system	The Excretory system (Urinary) * Structure of organs of urinary * System: Kidney, Ureters, urinary, bladder, urethra, structure of skin Alterations in disease Applications and implications in nursing. <i>Teaching Learning Activities</i> * Lecture discussion * Explain using models, torso, charts slides, specimens * Record book
X	4	* Describe the structure & functions of endocrine system	The Endocrine system * Structure of Pituitary, Pancreas, thyroid, Parathyroid, thymus and adrenal glands Alterations in disease Applications and implications in nursing <i>Teaching Learning Activities</i> * Lecture discussion * Explain using models, torso, charts slides, specimens * Record book

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
XI	4	* Describe the structure & functions of reproductive system	The Reproductive system including breast * Structure of female reproductive organs * Structure of male reproductive organs * Structure of breast Alterations in disease Applications and implications in nursing <i>Teaching Learning Activities</i> * Lecture discussion * Explain using models, torso, charts slides, specimens * Record book

Physiology

Placement – First Year

Time: Theory – 60 Hours

Course Description: The Course is designed to assist the students to acquire knowledge of the normal physiology of various human body systems and understand the alterations in physiology in diseases and practice of nursing.

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
I	4	* Describe the physiology of cell, tissues, membranes and glands	Cell Physiology * Tissue formation, repair * Membranes & glands – functions Alterations in disease Applications and implications in nursing <i>Teaching Learning Activities</i> * Lecture discussion
II	4	* Describe the bone formation and growth and movements of skeleton system	Skeletal System * Bone formation & growth * Bones – Functions and movements of bones of axial and appendicular skeleton, bone healing * Joints and joint movement Alterations in disease Applications and implications in nursing <i>Teaching Learning Activities</i> * Lecture discussion * Explain using charts, models and films * Demonstration of joint movements
III	4	* Describe the muscle movements and tone and demonstrate muscle contraction and tone	Muscular System * Muscle movements, Muscle tone, Physiology of muscle contraction, levels and maintenance of posture Alterations in disease Applications and implications in nursing <i>Teaching Learning Activities</i> * Lecture discussion * Explain using Charts, models, slides, specimen and films <ul style="list-style-type: none"> • Demonstration of muscle movements, tone and contraction Content and Teaching Learning Activities

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
IV	7	* Describe the physiology of nerve stimulus, reflexes, brain, cranial and spinal nerves * Demonstrate reflex action and stimulus	Nervous System * Functions of Neurologia & neurons * Stimulus & nerve-impulse- definitions and mechanism * Functions of brain, spinal cord, cranial and spinal nerves * Cerebrospinal fluid-composition, circulation and function * Reflex arc, Reflex action and reflexes * Automatic functions – <ul style="list-style-type: none"> ▪ Pain: somatic, visceral and referred ▪ Automatic learning and biofeedback Alterations in disease Applications and implications in nursing Teaching Learning Activities * Lecture discussion * Explain using, Charts, models and films * Demonstrate nerve stimulus, reflex action, reflexes
V	8	* Describe the physiology of blood and functions of Heart * Demonstrate blood cell count, coagulation, grouping Hb: BP and Pulse monitoring	Circulatory System * Blood formation, composition, blood groups, blood coagulation * Hemoglobin: Structure, Synthesis and breakdown, Variation of molecules, estimation * Functions of Heart, Conduction, Cardiac cycle, circulation- Principles, Control, factors influencing BP and Pulse Alterations in disease Applications and implications in nursing Teaching Learning Activities * Lecture discussion * Explain using charts, films * Demonstration of Blood cell count, coagulation, grouping, Haemoglobin estimation, Heart conduction system. * Measurement of pulse, BP
VI	6	* Describe the physiology and mechanisms of respiration * Demonstrates spirometry	The Respiratory System * Functions of respiratory organs * Physiology of respiration * Pulmonary ventilation, Volume * Mechanics of respiration * Gaseous exchange in lungs * Carriage of oxygen & carbon-dioxide * Exchange of gases in tissues * Regulation of respiration, Alterations in disease Applications and implications in nursing. Teaching Learning Activities * Lecture discussion * Explain using Charts, films * Demonstration of spirometry

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
VII	6	*Describe the Physiology of digestive system *Demonstrates BMR	The Digestive System * Functions of organs of digestive tract. Movements of alimentary tract, Digestion in mouth, stomach, small intestines, Large intestines, Absorption of food. Functions of liver, gall bladder and pancreas * Metabolism of carbohydrates, protein and fat Teaching Learning Activities * Lecture discussion * Explain using Charts, films
VIII	5	*Describe the Physiology of excretory system	The Excretory System * Functions of kidneys, ureters, urinary bladder & urethra * Composition of urine * Mechanism of urine formation * Functions of skin * Regulation of body temperature * Fluid and electrolyte balance Alterations in disease Applications and implications in nursing. Teaching Learning Activities * Lecture discussion * Explain using Charts, films
IX	4	*Describe the physiology of sensory organs	The Sensory Organs * Functions of skin, eye, ear, nose, tongue, Alterations in disease Applications and implications in nursing. Teaching Learning Activities * Lecture discussion * Explain using Charts, films
X	5	*Describe the physiology of endocrine glands	The Endocrine Glands * Functions of Pituitary, pineal body, thymus, Thyroid, parathyroid, pancreas, Suprarenal, Placenta and ovaries & Testes Alterations in disease Applications and implications in nursing. Teaching Learning Activities * Lecture discussion * Explain using Charts, films * Demonstration of BMR

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
XI	5	*Describe the physiology of male and female reproductive system	The Reproductive System * Reproduction of cells – DNA, Mitosis, Meiosis, spermatogenesis, oogenesis. * Functions of female reproductive organs; Functions breast, Female sexual cycle. * Introduction to embryology * Functions of male reproductive organs, Male function in reproduction, Male fertility system Alterations in disease Applications and implications in nursing. Teaching Learning Activities * Lecture discussion * Explain using Charts, films models, specimens
XII	2	*Describe the Physiology of Lymphatic and Immunological System	Lymphatic & Immunological System * Circulation of lymph * Immunity <ul style="list-style-type: none"> ▪ Formation of T-cells and B cells ▪ Types of Immune response ▪ Antigens ▪ Cytokines ▪ Antibodies Teaching Learning Activities * Lecture discussion * Explain using Charts, films

Scheme of Examination: Anatomy and Physiology

There shall be one paper of three hours duration for Anatomy and Physiology, carrying 100 marks. Section A- shall be Anatomy carrying 50 marks and Section B- Physiology carrying 50 marks. The distribution of type of questions and marks shall be as under. There shall be no practical examination.

Distribution of Type of Questions and Marks for Anatomy and Physiology (50 marks for each subject)

Type of Questions	No. of Questions	Marks	Sub-total
Long Essay (LE)	1	10	10
Short Essay (SE)	5	5	25
Short Answer (SA)	5	3	15
Total Marks			50

Nutrition

Placement: First Year
Time: Theory 60 hours

Course of Description: The course is designed to assist the students to acquire knowledge of nutrition for maintenance of optimum health at different stages of life and its application for practice of nursing

Unit	Time (Hrs)		Learning Objectives	Content and Teaching Learning Activities
	Th	Pr		
I	4		* Describe the relationship between nutrition & Health	Introduction * Nutrition: <ul style="list-style-type: none">HistoryConcepts * Role of nutrition in maintaining health * Nutritional problems in India * National nutritional policy * Factors affecting food and nutrition: socio-economic, cultural, tradition, production, system of distribution, life style and food habits etc. * Role of food and its medicinal value * Classification of foods * Food standards * Elements of nutrition: macro and micro * Calorie, BMR Teaching Learning Activities * Lecture Discussion * Explaining using charts * Panel discussion
II	2		* Describe the classification, functions, sources and recommended daily allowances (RDA) of carbohydrates	Carbohydrates * Classification * Calorie Value * Recommended daily allowances * Dietary sources * Functions * Digestion, absorption and storage, metabolism of carbohydrates * Malnutrition: Deficiencies and Over consumption Teaching Learning Activities * Lecture discussion * Explaining using charts

Unit	Time (Hrs)		Learning Objectives	Content and Teaching Learning Activities
	Th	Pr		
III	2		* Describe the classification, functions, sources and recommended daily allowances (RDA) of Fats	Fats <ul style="list-style-type: none"> * Classification * Caloric value * Recommended daily allowances * Dietary sources * Functions * Digestion, absorption and storage, metabolism * Malnutrition: Deficiencies and over consumption Teaching Learning Activities <ul style="list-style-type: none"> * Lecture discussion * Explaining using charts
IV	2		* Describe the classification, functions, sources and recommended daily allowances (RDA) of Proteins	Proteins <ul style="list-style-type: none"> * Classification * Caloric value * Recommended daily allowances * Dietary sources * Functions * Digestion, absorption, metabolism and storage * Malnutrition: Deficiencies and Over consumption Teaching Learning Activities <ul style="list-style-type: none"> * Lecture discussion * Explaining using charts
V	3		* Describe the daily calorie requirement for different categories of people	Energy <ul style="list-style-type: none"> * Unit of Energy – Kcal * Energy requirements of different categories of people * Measurements of energy * Body Mass Index (BMI) and basic metabolism * Basal Metabolic Rate (BMR) - determination and factors affecting Teaching Learning Activities <ul style="list-style-type: none"> * Lecture discussion * Explaining using charts * Exercise * Demonstration

Unit	Time (Hrs)		Learning Objectives	Content and Teaching Learning Activities
	Th	Pr		
VI	4		* Describe the classification, functions, sources and recommended daily allowances (RDA) of Vitamins	Vitamins <ul style="list-style-type: none"> * Classification * Recommended daily allowances * Dietary sources * Functions * Absorption, synthesis, metabolism storage and excretion * Deficiencies * Hypervitaminosis Teaching Learning Activities <ul style="list-style-type: none"> * Lecture discussion * Explaining using charts
VII	4		* Describe the classification, functions, sources and recommended daily allowances (RDA) of Minerals	Minerals <ul style="list-style-type: none"> * Classification * Recommended daily allowances * Dietary sources * Functions * Absorption, synthesis, metabolism storage and excretion * Deficiencies * Over consumption and toxicity Teaching Learning Activities <ul style="list-style-type: none"> * Lecture discussion * Explaining using charts
VIII	3		* Describe the sources, functions and requirements of Water & electrolytes	Water & electrolytes <ul style="list-style-type: none"> * Water: Daily requirement, regulation of water metabolism, distribution of body water, * Electrolytes: Types, sources, composition of body fluids * Maintenance of fluid & electrolyte balance * Over hydration, dehydration and water intoxication * electrolyte imbalances Teaching Learning Activities <ul style="list-style-type: none"> * Lecture discussion * Explaining using charts

Unit	Time (Hrs)		Learning Objectives	Content and Teaching Learning Activities
	Th	Pr		
IX	5	15	<ul style="list-style-type: none"> * Describe the Cookery rules and preservation of nutrients * Prepare and serve simple beverages and different types of foods 	<p>Cookery rules and preservation of nutrients</p> <ul style="list-style-type: none"> * Principles, methods of cooking and serving <ul style="list-style-type: none"> ▪ Preservation of nutrients * Safe Food handling-toxicity * Storage of food * Food preservation, food additives and its principles * prevention of food adulteration Act (PFA) * Food standards * Preparation of simple beverages and different types of food <p>Teaching Learning Activities</p> <ul style="list-style-type: none"> * Lecture discussion * Demonstration * Practice session
X	7	5	<ul style="list-style-type: none"> * Describe and plan balanced diet for different categories of people 	<p>Balanced diet</p> <ul style="list-style-type: none"> * Elements * Food groups * Recommended Daily allowance * Nutritive value of foods * Calculation of balanced diet for different categories of people * Planning menu * Budgeting of food * Introduction to therapeutic diets: Naturopathy - diet
XI	4		<ul style="list-style-type: none"> * Describe various national programmes related to nutrition * Describe the role of nurse in assessment of nutritional status and nutrition education 	<p>Role of nurse in nutritional programmes</p> <ul style="list-style-type: none"> * National programmes related to nutrition <ul style="list-style-type: none"> ▪ Vitamin A deficiency programme ▪ National iodine deficiency disorders (IDD) programme ▪ Mid-day meal programme ▪ Integrated child development scheme (ICDS) * National and International agencies working towards food/nutrition <ul style="list-style-type: none"> ▪ NIPCCD, CARE, FAO, NIN, CFTRI (Central food technology and research institute) etc. * Assessment of nutritional status * Nutrition education and role of nurse <p>Teaching Learning Activities</p> <ul style="list-style-type: none"> * Lecture Discussion * Explaining with * Slide / Film shows * Demonstration of Assessment of nutritional status

Biochemistry

Placement – First Year

Time: Theory –30 Hours

Course Description: The Course is designed to assist the students to acquire knowledge of the normal biochemical composition and functioning of human body and understand the alterations in biochemistry in diseases for practice of nursing.

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
I	3	*Describe the structure Composition and functions of cell *Differentiate between Prokaryote & Eukaryote cell * Identify techniques of Microscopy	Introduction * Definition and significance in nursing * Review of structure, Composition and functions of cell * Prokaryote and Eukaryote cell organization * Microscopy Teaching Learning Activities * Lecture discussion using charts, slides * Demonstrate use of microscope
II	6	* Describe the structure and functions of cell membrane	Structure and functions of Cell membrane * Fluid mosaic model tight junction, Cytoskeleton * Transport mechanism: diffusion osmosis, filtration, active channel, sodium pump * Acid base balance-maintenance & diagnostic tests <ul style="list-style-type: none"> ▪ PH buffers Teaching Learning Activities * Lecture discussion

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
III	6	* Explain the metabolism of carbohydrates	<p>Composition and metabolism of Carbohydrates</p> <p>* Types, structure, composition and uses</p> <ul style="list-style-type: none"> ▪ Monosaccharides, Disaccharides, Polysaccharides, Oligosaccharides <p>* Metabolism</p> <ul style="list-style-type: none"> ▪ Pathways of glucose: <ul style="list-style-type: none"> • Glycolysis • Gluconeogenesis: Cori's cycle, Tricarboxylic acid (TCA) cycle • Glycogenolysis • Pentose phosphate Pathways (Hexose mono phosphate) ▪ Regulation of blood glucose level <p>Investigations and their interpretations</p> <p>Teaching Learning Activities</p> <p>* Lecture discussion using charts</p> <p>* Demonstration of laboratory tests</p>
IV	4	* Explain the metabolism of Lipids	<p>Composition and metabolism of Lipids</p> <p>* Types, Structure, composition and uses of fatty acids</p> <ul style="list-style-type: none"> ▪ Nomenclature, Roles and Prostaglandins <p>* Metabolism of fatty acid</p> <ul style="list-style-type: none"> ▪ Breakdown ▪ Synthesis <p>* Metabolism of triacylglycerols</p> <p>* Cholesterol metabolism</p> <ul style="list-style-type: none"> ▪ Biosynthesis and its Regulation • Bile salts and bilirubin • Vitamin D • Steroid hormones <p>* Lipoproteins and their functions</p> <ul style="list-style-type: none"> ▪ VLDLs- IDLs, LDLs and HDLs ▪ Transport of lipids ▪ Atherosclerosis, <p>Investigations and their interpretations</p> <p>Teaching Learning Activities</p> <p>* Lecture discussion using charts</p> <p>* Demonstration of laboratory tests</p>

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
V	6	* Explain the metabolism of Amino acids and Proteins	<p>Composition and metabolism of Amino acids and Proteins</p> <p>* Types, structure, composition and uses of Amino acids and Proteins</p> <p>* Metabolism of Amino acids and Proteins</p> <ul style="list-style-type: none"> ▪ Protein synthesis, targeting and Glycosylation ▪ Chromatography ▪ Electrophoresis ▪ Sequencing <p>* Metabolism of Nitrogen</p> <ul style="list-style-type: none"> ▪ Fixation and Assimilation ▪ Urea Cycle ▪ Hemes and chlorophylls <p>* Enzymes and co-enzymes</p> <ul style="list-style-type: none"> ▪ Classification ▪ Properties ▪ Kinetics and inhibition ▪ Control <p>Investigations and their interpretations</p> <p>Teaching Learning Activities</p> <p>* Lecture discussion using charts</p> <p>* Demonstration of laboratory tests</p>
VI	2	* Describe types, composition and utilization of Vitamins & minerals	<p>Composition of Vitamins and minerals</p> <p>* Vitamins and minerals:</p> <ul style="list-style-type: none"> ▪ Structure, Classification, Properties, Absorption ▪ Storage & transportation ▪ Normal concentration <p>* Investigations and their interpretation</p> <p>Teaching Learning Activities</p> <p>* Lecture discussion using charts</p> <p>* Demonstration of laboratory tests</p>

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
VII	3	* Describe Immuno-chemistry	Immunochemistry * Immune response, * Structure and classification of immunoglobins * Mechanism of antibody production * Antigens: HLA typing * Free radical and Antioxidants * Specialized Protein: Collagen, Elastin, Keratin, Myosin, Lens Protein. * Electrophoretic and Quantitative determination of immunoglobins – ELISA etc. Investigations and their interpretations Teaching Learning Activities * Lecture discussion using charts * Demonstration of laboratory tests

Scheme of Examination: Nutrition and Biochemistry

- There shall be one paper of three hours duration carrying 100 marks. Section A Nutrition of 60 marks and Section B of Biochemistry of 40 marks. There shall be no practical examination.

Distribution of Type of Questions and Marks for Nutrition (60 marks)

Type of Questions	No. of Questions	Marks	Sub-total
Long Essay (LE)	2	10	20
Short Essay (SE)	5	5	25
Short Answer (SA)	5	3	15
Total Marks			60

Distribution of Type of Questions and Marks for Biochemistry (40 marks)

Type of Questions	No. of Questions	Marks	Sub-total
Long Essay (LE)	1	10	10
Short Essay (SE)	3	5	15
Short Answer (SA)	5	3	15
Total Marks			40

Nursing Foundations

Placement: First Year
Time: Theory - 265 hours

Practical - 650 hours
(200 lab and 450 clinical)

Course Description: This course is designed to help the students to develop an understanding of the philosophy, objectives, theories and process of nursing in various Supervised Clinical settings. It is aimed at helping the students to acquire knowledge, understanding and skills in techniques of nursing and practice them in Supervised Clinical settings.

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
I	10	* Describe the concept of health, illness and health care agencies	Introduction * Concept of Health: Health – illness continuum * Factors influencing health * Causes and risk factors for developing illness * Body defences: Immunity and immunization * Illness and illness Behavior: * Impact of illness on patient and family * Health Care Services: Health Promotion and Prevention, Primary Care, Diagnosis, Treatment, Rehabilitation and Continuing Care * Health care teams * Types of health care agencies * Hospitals: Types, Organisation and Functions * Health Promotion and Levels of Disease Prevention *Primary Health care and its delivery: Role of nurse Teaching Learning Activities * Lecture discussion * Visit to health care agencies

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
II	16	* Explain concept and scope of nursing * Describe values, code of ethics and professional conduct for nurses of India	Nursing as a profession * Definition and Characteristics of a profession * Nursing: <ul style="list-style-type: none"> ▪ Definition, Concepts, philosophy, objectives ▪ Characteristics, nature and scope of nursing practice ▪ Functions of nurse ▪ Qualities of a nurse ▪ Categories of nursing personnel ▪ Nursing as a profession ▪ History of Nursing in India. * Values: Definition, Types, Values Classification and values in professional Nursing: Caring & Advocacy * Ethics: <ul style="list-style-type: none"> ▪ Definition and Ethical Principles ▪ Code of ethics and professional conduct for nurses. Teaching Learning Activities * Lecture discussion * Case discussion * Role plays
III	4	* Explain the admission and discharge procedure * Performs admission and discharge procedure	Hospital admission and discharge * Admission to the hospital <ul style="list-style-type: none"> ▪ Unit and its preparation-admission bed ▪ Admission procedure ▪ Special considerations ▪ Medico-legal issues ▪ Roles and Responsibilities of the nurse * Discharge from the hospital <ul style="list-style-type: none"> ▪ Types: Planned discharge, LAMA and abscond, Referrals and transfers ▪ Discharge Planning ▪ Discharge procedure ▪ Special consideration ▪ Medico-legal issues ▪ Roles and Responsibilities of the nurse ▪ Care of the unit after discharge Teaching Learning Activities * Lecture discussion * Demonstration * Lab Practice * Supervised Clinical practice

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
IV	10	<p>*Communicate effectively with patient, families and team members and maintain effective human relations (projecting professional image)</p> <p>* Appreciate the importance of patient teaching in nursing</p>	<p>Communication and Nurse patient relationship</p> <p>* Communication: Levels, Elements, Types, Modes, Process, Factors influencing Communication</p> <ul style="list-style-type: none"> ▪ Methods of Effective Communication, <ul style="list-style-type: none"> • Attending skills • Rapport building skills • Empathy skills ▪ Barriers to effective communication, <p>* Helping Relationship (NPR): Dimensions of Helping Relationships, Phase of a helping relationship</p> <p>* Communicating effectively with patient, families and team members and maintain effective human relations with special reference to communicating with vulnerable group(children, women, physically and mentally challenged and elderly)</p> <p>* Patient Teaching: Importance, Purposes, Process, role of nurse and Integrating teaching in Nursing Process.</p> <p>Teaching Learning Activities</p> <p>* Lecture discussion</p> <p>* Role play and video film on the nurses interacting with the patient</p> <p>* Practice session on patient teaching</p> <p>* Supervised Clinical Practice</p>

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
V	15	<p>* Explain the concept, uses, format and steps of nursing process</p> <p>* Documents nursing process as per the format</p>	<p>The Nursing Process</p> <p>* Critical Thinking and Nursing Judgment</p> <ul style="list-style-type: none"> ▪ Critical Thinking: Thinking and Learning ▪ Competencies, Attitudes for Critical Thinking, Levels of critical thinking in Nursing <p>* Nursing Process Overview:</p> <p>Application in Practice</p> <ul style="list-style-type: none"> ▪ Nursing process format: INC, current format ▪ Assessment - Collection of Data : Types, Sources, Methods - Formulating Nursing Judgment: Data interpretation ▪ Nursing Diagnosis - Identification of client problems - Nursing diagnosis statement - Difference between medical and nursing diagnosis ▪ Planning - Establishing Priorities - Establishing Goals and Expected Outcomes - Selection of interventions : Protocols and standing Orders - Writing the Nursing Care Plan ▪ Implementation - Implementing the plan of care ▪ Evaluation - Outcome of care - Review and Modify ▪ Documentation and Reporting <p>Teaching Learning Activities</p> <p>* Lecture discussion</p> <p>* Demonstration</p> <p>* Exercise</p> <p>* Supervised Clinical Practice</p>

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
VI	4	* Describe the purposes, types and techniques of recording and reporting	Documentation and Reporting * Documentation : Purposes of Recording and reporting * Communication within the Health Care Team * Types of records; ward records, medical/nursing records, * Common Record-keeping forms, Computerized documentation * Guidelines for Reporting: Factual Basis, Accuracy, Completeness, currentness, Organization, confidentiality * Methods of Recording * Reporting: Change of shift reports: Transfer reports, incident reports <ul style="list-style-type: none"> Minimizing legal Liability through effective record keeping Teaching Learning Activities * Lecture discussion * Demonstration * Practice Session * Supervised Clinical Practice
VII	15	* Describe principles and techniques of monitoring and maintaining vital signs * Monitor and maintain vital signs	Vital signs * Guidelines for taking vital signs : * Body temperature: <ul style="list-style-type: none"> Physiology, Regulation, Factors affecting body temperature, Assessment of body temperature: sites, equipments and technique, special considerations Temperature alterations: Hyperthermia, Heatstroke, Hypothermia <ul style="list-style-type: none"> Hot and cold applications * Pulse: <ul style="list-style-type: none"> Physiology & Regulation, Characteristics of the pulse, Factors affecting pulse Assessment of the pulse: sites, location, equipments and technique, special considerations Alterations in pulse: * Respiration <ul style="list-style-type: none"> Physiology and Regulation, Mechanics of breathing Characteristics of the respiration, Factors affecting respiration Assessment of respirations:

			<p>Technique, special considerations</p> <ul style="list-style-type: none"> ▪ Alterations in respiration <p>* Blood pressure :</p> <ul style="list-style-type: none"> ▪ Physiology and Regulation, Characteristics of the blood pressure, Factors affecting blood pressure ▪ Assessment of blood pressure: sites, equipments and technique, special considerations ▪ Alterations in blood pressure <p>Recording of vital signs</p> <p>Teaching Learning Activities</p> <ul style="list-style-type: none"> * Lecture discussion * Demonstration * Practice * Supervised Clinical Practice
VIII	30	<p>* Describe purpose and process of health assessment</p> <p>* Describe the health assessment of each body system</p> <p>* Perform health assessment of each body system</p>	<p>Health assessment</p> <ul style="list-style-type: none"> * Purposes * Process of Health assessment <ul style="list-style-type: none"> ▪ Health History ▪ Physical examination : <ul style="list-style-type: none"> - Methods-Inspection, Palpation, Percussion, Auscultation, Olfaction - Preparation for examination: patient and unit - General assessment - Assessment of each body system - Recording of health assessment <p>Teaching Learning Activities</p> <ul style="list-style-type: none"> * Lecture discussion * Demonstration * Practice on stimulators * Supervised Clinical Practice
IX	5	<p>* Identify the various machinery, equipment and linen and their care</p>	<p>Machinery, Equipment and linen</p> <ul style="list-style-type: none"> * Types: Disposables and reusable- Linen, rubber goods, glass ware, metal, plastics, furniture, machinery * Introduction <ul style="list-style-type: none"> ▪ Indent ▪ Maintenance ▪ Inventory <p>Teaching Learning Activities</p> <ul style="list-style-type: none"> * Lecture discussion * Demonstration

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
X	60	<p>* Describe the basic, psychological needs of patient</p> <p>* Describe the principles and techniques for meeting basic, Physiological and psychosocial needs of patient</p> <p>* Perform nursing assessment, plan implement and evaluate the care for meeting basic, physiological and psychosocial needs of patient</p>	<p>Meeting needs of patient</p> <p>* Basic needs (Activities of daily living)</p> <ul style="list-style-type: none"> ▪ Providing safe and clean environment: <ul style="list-style-type: none"> • Physical-environment: Temperature, Humidity, Noise, Ventilation, light, Odour, pests control • Reduction of physical hazards: fire, accidents • Safety devices: Restraints, side rails, airways, trapeze etc. • Role of nurse in providing safe and clean environment. ▪ Hygiene:- <ul style="list-style-type: none"> • Factors Influencing Hygienic Practice • Hygienic care: Care of the Skin-Bath and pressure points, feet and nail, Oral cavity, Hair Care, Eyes, Ears and Nose <ul style="list-style-type: none"> ○ Assessment, Principles, Types, Equipments, Procedure, Special Considerations - Patient environment: Room Equipment and linen, making patient beds <ul style="list-style-type: none"> ○ Types of beds and bed making ▪ Comfort:- <ul style="list-style-type: none"> - Factors influencing Comfort - Comfort devices <p>* Physiological needs:-</p> <ul style="list-style-type: none"> ▪ Sleep and Rest : <ul style="list-style-type: none"> - Physiology of sleep - Factors affecting sleep - Promoting Rest and sleep - Sleep Disorders ▪ Nutrition :- <ul style="list-style-type: none"> - Importance - Factors affecting nutritional needs - Assessment of nutritional needs - Meeting Nutritional needs: Principles, equipments, procedure and special considerations <ul style="list-style-type: none"> ○ Oral ○ Enteral : Naso/ Orogastric, gastrostomy ○ Parenteral : ▪ Urinary Examination <ul style="list-style-type: none"> - Review of Physiology of Urine Elimination, Composition and characteristics of urine. - Factors influencing Urination - Alteration in Urinary Elimination

			<ul style="list-style-type: none"> - Types and Collection of urine specimen: Observation, urine testing - Facilitating urine elimination: assessment, types, equipments, procedures and special considerations <ul style="list-style-type: none"> ○ Providing urinal/bed pan ○ Condom drainage ○ Perineal care ○ Catheterization ○ Care of urinary drainage ○ Care of urinary diversions ○ Bladder irrigation ▪ Bowel Elimination - Review of Physiology of Bowel Elimination, Composition and characteristics of faeces - Factors affecting Bowel elimination - Alteration in Bowel Elimination - Types and Collection of specimen of faeces: Observation - Facilitating bowel elimination: assessment, equipments, procedures and special considerations <ul style="list-style-type: none"> ○ Passing of Flatus tube ○ Enemas ○ Suppository ○ Sitz bath ○ Bowel was ○ Care of Ostomies ▪ Mobility and Immobility - Principles of Body Mechanics - Maintenance of normal body Alignment and mobility - Factors affecting body Alignment and mobility - Hazards associated with immobility - Alteration In body Alignment and mobility - Nursing interventions for impaired Body Alignment and Mobility: assessment, types, devices used, method and special considerations, rehabilitation aspects <ul style="list-style-type: none"> ○ Range of motion exercises ○ Maintaining body alignment: Positions ○ Moving ○ Lifting ○ Transferring ○ Walking
--	--	--	---

			<ul style="list-style-type: none"> ○ Restraints ▪ Oxygenation <ul style="list-style-type: none"> - Review of Cardiovascular and respiratory Physiology - Factors Affecting Oxygenation - Alterations in oxygenation - Nursing interventions in oxygenation : assessment, types, equipment used, procedure and special considerations ○ Maintenance of patent airway ○ Oxygen administration ○ Suction ○ Inhalations: dry and moist ○ Chest physiotherapy and postural drainage ○ Pulse oximetry ○ CPR-Basic life support ▪ Fluid, Electrolyte, and Acid – Base Balances <ul style="list-style-type: none"> - Review of Physiological regulation of Fluid, Electrolyte, and Acid-Base Balances - Factors Affecting Fluid, Electrolyte, and Acid-Base Balances - Alterations in Fluid, Electrolyte, and Acid-Base Balances - Nursing interventions in Fluid, Electrolyte and Acid - Base Imbalances : assessment, types, equipment, procedure and special considerations ○ Measurement fluid intake and output ○ Correcting Fluid Electrolyte Imbalance: <ul style="list-style-type: none"> ➤ Replacement of fluids: Oral and Parenteral -Venipuncture, regulating IV flow rates, changing IV solutions and tubing, changing IV dressing, ➤ Administering Blood transfusion ➤ Restriction of fluids • Psychosocial Needs <ul style="list-style-type: none"> ○ Concepts of Cultural Diversity, Stress and Adaptation, Self-concept, Sexuality, Spiritual Health, coping with loss, death and grieving ○ Assessment of psychosocial needs ○ Nursing intervention for psychosocial needs <ul style="list-style-type: none"> - Assist with coping and adaptation - Creating therapeutic environment ○ Recreational and diversional therapies <p><i>Teaching Learning Activities</i> * Lecture discussion</p>
--	--	--	--

			* Demonstration * Practice sessions * Supervised Clinical Practice
XI	20	* Describe principles and techniques for infection control and biomedical waste management in Supervised Clinical settings	Infection control in Clinical settings * Infection control <ul style="list-style-type: none"> ▪ Nature of infection ▪ Chain of infection transmission ▪ Defenses against infection: Natural and acquired ▪ Hospital acquired infection (Nosocomial infection) * Concept of asepsis: medical asepsis, and surgical asepsis * Isolation precautions (Barrier nursing): <ul style="list-style-type: none"> ▪ Hand washing: simple, hand antisepsis and surgical antisepsis (scrub) ▪ Isolation: source and protective ▪ Personal protecting equipments: types, uses and technique of wearing and removing ▪ Decontamination of equipment and unit ▪ Transportation of infected patients ▪ Standard safety precautions (Universal precautions) ▪ Transmission based precautions * Biomedical waste management : <ul style="list-style-type: none"> ▪ Importance ▪ Types of hospital waste ▪ Hazards associated with hospital waste ▪ Decontamination of hospital waste ▪ Segregation and Transportation and disposal Teaching Learning Activities * Lecture discussion * Demonstration * Practice session * Supervised Clinical practice
XII	40	* Explain the principles, routes, effects of administration of medications * Calculate conversions of drugs and dosages within and between systems of measurements * Administer drugs by the following routes-oral, Intradermal,	Administration of Medications * General Principles/Considerations <ul style="list-style-type: none"> ▪ Purposes of Medication ▪ Principles: 5 rights, Special Considerations, Prescriptions, Safety in Administering Medications and Medication Error ▪ Drugs forms ▪ Routes of administration ▪ Storage and maintenance of drugs and Nurses responsibility ▪ Broad classification of drugs ▪ Therapeutic Effect, Side Effects, Toxic Effects, Idiosyncratic Reactions, Allergic Reactions, Drug Tolerance, Drug

Nursing Foundations – Practical

Placement: First Year

Time : Practical – 650 hours
(200 lab and 450 clinicals)

Course Description: This Course is designed to help the students to develop an understanding of the philosophy, objectives, theories, and process of nursing in various clinical settings. It is aimed at helping the students to acquire knowledge, understanding and skills in techniques of nursing and practice them in clinical settings.

Areas	Time (Hrs)	Objectives	Skills	Assignments	Assessment Methods
Demonstration Lab General Medical and Surgery ward	200 450 Minimum practice time in clinical area: 100	<div>* Performs admission and discharge procedure</div> <div>* Prepares nursing care plans as per the nursing process format</div> <div>*Communicate effectively with patient, families and tea members and</div>	<div>Hospital admission and discharge (III) * Admission * Prepare Unit for new patient * Prepare admission bed * Performs admission procedure<ul style="list-style-type: none">New patientTransfer in * Prepare patient records</div> <div>Discharge / Transfer out * Gives discharge counseling * Perform discharge procedure (Planned discharge, LAMA and abscond, Referrals and transfers) * Prepare records of discharge/transfer * Dismantle, and disinfect unit and equipment after discharge / transfer.</div> <div>Perform assessment: * History taking, Nursing diagnosis, problem list, Prioritization, Goals & Expected Outcomes, selection of interventions * Write Nursing Care Plan * Gives care as per the plan</div> <div>Communication * Use verbal and non verbal communication techniques</div>	<div>* Practice in Unit/hospital</div> <div>* Write nursing process records of patient * Simulated-1 * Actual - 1</div> <div>* Role-plays in simulated situations on communication techniques-1 * Health talk-1</div>	<div>* Evaluate with checklist * Assessment of clinical performance with rating scale * Competition of practical record</div> <div>*Assessment of nursing process records with checklist * Assessment of actual care given with rating scale</div> <div>* Assess role plays with the check list on communication techniques * Assess</div>

		<ul style="list-style-type: none">* Maintain effective human relations* Develops plan for patient teaching	Prepare a plan for patient teaching session		health talk with the checklist
					*Assessment of communication techniques by rating scale
					*Assessment of performance with rating scale
		<ul style="list-style-type: none">* Prepare patient reports* Presents reports	Write patient report <ul style="list-style-type: none">* Change-of shift reports, Transfer reports, Incident reports etc.* Presents patient report	<ul style="list-style-type: none">* Write nurses notes and present the patient report of 2-3 assigned patient	*Assessment of each skill with checklist
		<ul style="list-style-type: none">* Monitor vital signs	Vital Signs <ul style="list-style-type: none">* Measure, Records and interpret alterations in body temperature, pulse respiration and blood pressure	<ul style="list-style-type: none">* Lab practice* Measure Vital signs of assigned patient	*Completion of activity record
		<ul style="list-style-type: none">* Perform health assessment of each body system	Health assessment <ul style="list-style-type: none">* Health history taking* Perform assessment:<ul style="list-style-type: none">○ General○ Body system* Use various methods of physical examination* Inspection, Palpation, Percussion, Auscultation, Olfaction* Identification of system wise deviations		*Assessment of each skill with rating scale
		<ul style="list-style-type: none">* Provide basic nursing care to patients	Prepare Patient’s unit: <ul style="list-style-type: none">* Prepare beds:<ul style="list-style-type: none">○ Open, closed, occupied, operation, amputation,○ Cardiac, fracture, burn, Divided, & Fowlers bed	<ul style="list-style-type: none">* Practice in lab & hospital* Simulated exercise on CPR manikin	*Completion of activity record
					* Assess observation study in checklist

			<p>* Pain assessment and provision for comfort</p> <p>Use comfort devices Hygienic care</p> <p>* Oral hygiene:</p> <p>* Baths and care of pressure points</p> <p>* Hair wash, Pediculosis treatment</p> <p>Feeding:</p> <p>* Oral, Enteral, Naso/Orogastric, gastrostomy and Parenteral feeding</p> <p>* Naso-gastric insertion, suction, and irrigation</p> <p>Assisting patient in urinary elimination</p> <p>* Provides urinal/bed pan</p> <p>* Condom drainage</p> <p>* Perineal care</p> <p>* Catheterization</p> <p>* Care of urinary drainage</p> <p>Bladder irrigation</p> <p>Assisting bowel Elimination:</p> <p>* Insertion of Flatus tube</p> <p>* Enemas</p> <p>* Insertion of Suppository</p> <p>Bowel wash Body Alignment and Mobility:</p> <ul style="list-style-type: none"> ○ Range of motion exercises ○ Positioning: Recumbent, Lateral (rt/lt), Flowers, Sims, Lithotomy, Prone, Trendelenburg position ○ Assist patient in Moving lifting, transferring, walking, ○ Restraints <p>Oxygen administration</p> <p>Suctioning: Oropharyngeal, nasopharyngeal</p> <p>Chest physiotherapy and postural drainage</p> <p>Care of Chest drainage</p> <p>CPR-Basic life support</p>	<p>* Observation study - 2</p> <p>* Department of Infection control & CSSD</p> <p>* Visits CSSD write observation report 1</p> <p>* Collection of samples for culture</p> <p>* Do clinical postings in infection control department and write report</p> <p>* Practice in lab/ward</p>	
--	--	--	---	--	--

--	--	---	---	--	---

		<ul style="list-style-type: none"> Care of articles 		
		<p>* Provide care to pre and post operative patients</p> <p>* Perform procedures for care of wounds</p> <p>* Administer drugs</p> <p>* Provide care to dying and dead</p> <p>* Counsel and support relatives.</p>	<p>Pre and post operative care:</p> <p>* Skin preparations for surgery : Local</p> <p>* Preparation of Post operative unit</p> <p>* Pre & Post operative teaching and counseling</p> <p>* Pre & Post operative monitoring</p> <p>* Care of the wound</p> <p>* Dressings, Suture Care, care of Drainage, Application of Bandages, Binders, splints & Slings</p> <p>* Bandaging of various body parts</p> <p>Administration of medications</p> <p>* Administer medications in different forms and routes</p> <p>* Oral, Sublingual and Buccal</p> <p>* Parenteral : Intradermal, subcutaneous, Intramuscular etc.</p> <p>* Assist with Intra venous mediations</p> <p>* Drug measurements and dose calculations</p> <p>* Preparation of lotions and solutions</p> <p>* Administers topical applications</p> <p>* Insertion of drug into body cavity: Suppository & medicated packing etc.</p> <p>* Instillation of medicines and spray into Ear, Eye, Nose and throat</p> <p>* Irrigations: Eye, Ear, Bladder, Vagina and Rectum</p> <p>* Inhalations: dry and moist</p> <p>Care of dying patient</p> <p>* Caring and packing of dead body</p> <p>* Counseling and supporting grieving relatives</p> <p>* Terminal care of the unit</p>	

Scheme of University Examination for Nursing Foundations

Theory

There shall be one theory paper of three hours duration carrying 100 marks. Distribution of type of questions and marks for Nursing Foundations shall be as given under.

Type of Questions	No. of Questions	Marks	Sub-total
Long Essay (LE)	2	10	20
Short Essay (SE)	10	5	50
Short Answer (SA)	10	3	30
Total Marks			100

Practical and Viva-voce

There shall be practical and viva-voce examination carrying 100 marks. The practical examinations must be held in the respective clinical areas. One internal and one external examiner should jointly conduct practical /clinical examination for each student. Assessment methods are given in column 6 under course description.

Psychology

Placement: First Year

Time: Theory 60 Hours

Course Description: This course is designed to assist the students to acquire knowledge of fundamentals of Psychology and develop an insight into behaviour of self and others. Further it is aimed at helping them to practice the principles of mental hygiene for promoting mental health in Nursing practice.

Unit	Time (Hrs)	Learning Objectives	Content and
I	2	* Describe the history, scope and methods of Psychology	Introduction: * History and origin of Science of Psychology * Definitions and scope of Psychology * Relevance to Nursing * Methods of Psychology <i>Teaching Learning Activity</i> * Lecture Discussion
II	4	* Explain the Biology of Human behaviour	Biology of Behaviour * Body mind relationship – modulation process in health and illness. * Genetics and behaviour : Heredity and Environment * Brain and behaviour: Nervous system, Neurons and synapse * Association cortex, Rt and Lt Hemispheres * Psychology of sensations * Muscular and glandular controls of behaviour * Nature of behaviour of an organism/integrated responses <i>Teaching Learning Activity</i> * Lecture Discussion
III	20	* Describe various cognitive processes and their applications	Cognitive processes * Attention: Types, determinants, duration and degree, alterations * Perception: Meaning, Principles, factors affecting, errors * Learning: Nature, Types, learner and learning, Factors influencing, laws and theories, process, transfer, study habits. * Memory: Meaning, types, nature factors influencing, development theories and methods of memorizing and forgetting * Thinking: Types and levels, stages of development, relationship with language and communication * Intelligence: Meaning, classification, uses, theories * Aptitude: Concepts, types, individual differences

			<p>and variability.</p> <ul style="list-style-type: none"> * Psychometric assessments of cognitive processes * Alterations in cognitive processes * Applications <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion
IV	8	<ul style="list-style-type: none"> * Describe motivation, emotions, stress, attitudes and their influence on behaviour 	<p>Motivation and Emotional processes:</p> <ul style="list-style-type: none"> * Motivation: Meaning, concepts, types, theories, motives and behaviour, conflicts and frustration, conflict resolution * Emotions and stress <ul style="list-style-type: none"> o Emotions: Definition, components, changes in emotions, theories, emotional adjustments, emotions in health and illness. o Stress: stressors, cycle, effect, adaptation and coping * Attitude: Meaning, nature, development, factors affecting, <ul style="list-style-type: none"> o Behaviour and attitudes o Attitudinal change * Psychometric assessments of emotions and attitudes * Alterations in emotions * Applications <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion
V	7	<ul style="list-style-type: none"> * Explain the concepts of personality and its influence on behaviour 	<p>Personality</p> <ul style="list-style-type: none"> * Definitions, topography, types, Theories * Psychometric assessments of personality * Alterations in personality * Applications <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion
VI	7	<ul style="list-style-type: none"> * Describe Psychology of people during the life cycle 	<p>Developmental Psychology</p> <ul style="list-style-type: none"> * Psychology of people at different ages from infancy to old age * Psychology of vulnerable individuals-challenged, women, sick, etc. * Psychology of groups <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion
VII	8	<ul style="list-style-type: none"> * Describe the characteristics of * Mentally health person * Explain ego 	<p>Mental hygiene and mental Health</p> <ul style="list-style-type: none"> * Concepts of mental hygiene and mental health * Characteristics of mentally healthy person * Warning signs of poor mental health * Promotive and Preventive mental health-strategies and services

		defence mechanisms	<ul style="list-style-type: none"> * Ego Defence mechanisms and implications * Personal and social adjustments * Guidance and counseling * Role of nurse <p><i>Teaching Learning Activity</i></p> <ul style="list-style-type: none"> * Lecture Discussion * Case Discussion * Role Play * Demonstration
VIII	4	* Explain the Psychological assessments and role of nurse	<p>Psychological assessment & tests</p> <ul style="list-style-type: none"> * Types, development, Characteristics, Principles, Uses, Interpretations and Role of nurse in psychological assessment <p><i>Teaching Learning Activity</i></p> <ul style="list-style-type: none"> * Lecture Discussion * Demonstration * Practice sessions

Microbiology

Placement: First Year
Time: Theory-60 Hours (Theory 45+15 lab)

Course Description: This course is designed to enable students to acquire understanding of fundamentals of Microbiology and identification of various microorganisms. It also provides opportunities for practicing infection control measures in hospital and community settings.

Unit	Time (Hrs)		Learning Objectives	Content and Teaching Learning Activity
	Th	Pr		
I	5		* Explain concepts and principles of microbiology and their importance in nursing	Introduction: * Importance and relevance to nursing * Historical perspective * Concepts and terminology * Principles of microbiology <i>Teaching Learning Activity</i> * Lecture Discussion
II	10	5	* Describe structure, classification morphology and growth of bacteria * Identify Micro-organisms	General characteristics of Microbes * Structure and classification of Microbes * Morphological types * Size and form of bacteria * Motility * Colonization * Growth and nutrition of microbes <ul style="list-style-type: none">○ Temperature○ Moisture○ Blood and body fluids * Laboratory methods for Identification of Micro-organisms * Staining techniques, Gram staining, Acid fast staining, Hanging drop preparation * Culture; various medias Teaching Learning Activity * Lecture Discussion * Demonstration
III	10	2	* Describe the methods of infection control * Identify the role of nurse in hospital infection control programme	Infection Control * Infection: Sources, portals of entry and exit, transmission * Asepsis * Disinfection: Types and methods * Sterilization: Types and methods * Chemotherapy and antibiotics * Standard safety measures * Biomedical waste management * Role of Nurse * Hospital acquired infection * Hospital infection control programme <ul style="list-style-type: none">○ Protocols, collection of samples, preparation of report and

				<p>status of rate of infection in the unit/ hospital, nurse's accountability, continuing education etc.</p> <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion * Demonstration * Visits to CSSD * Clinical practice
IV	12	4	* Describe the different disease producing organisms	<p>Pathogenic organisms</p> <ul style="list-style-type: none"> * Micro-organisms <ul style="list-style-type: none"> ○ Cocci – gram positive and gram negative ○ bacilli – gram positive and gram negative ○ Spirochaete ○ Mycoplasma ○ Rickettsiae ○ Chlamydiae * Viruses * Fungi-Superficial and Deep mycoses * Parasites * Rodents & vectors Characteristics, Source, portal of entry, transmission of infection Identification of disease producing micro-organisms collection, handling and transportation of various specimens <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion * Demonstration * Clinical practice
V	8	4	Explain the concept of immunity, hyper sensitivity and immunization	<p>Immunity</p> <ul style="list-style-type: none"> * Immunity – Types, classification, * Antigen & antibody reaction * Hypersensitivity – skin test, * Serological tests * Immunoprophylaxis <ul style="list-style-type: none"> ○ Vaccines & sera – Types & classification, storage and handling, cold chain ○ Immunization for various diseases ○ Immunization schedule <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion * Demonstration * Clinical practice

Introduction to Computers

Placement: First Year

Time: Theory – 45 Hours

Course Description: This course is designed for students to develop basic understanding of uses of computer and its application in Nursing.

Unit	Time (Hrs)		Learning Objectives	Content and Teaching Learning Activities	Assessment Methods For Internal Assessment
	Th	Pr			
I	3		* Identify & define various concepts used in computer * Identify application of computer in nursing	Introduction: * Concepts of Computers * Hardware and software; trends and technology * Application of computers in nursing. Teaching Learning Activities * Lecture Discussion * Demonstration	* Short answers * Objective type
II	6	20	* Describe and Use the Disk Operating System * Demonstrate skill in the use of MS Office	* Introduction to disk – operating system <ul style="list-style-type: none"> ○ DOS ○ Windows (all version) * Introduction <ul style="list-style-type: none"> ○ MS-Word ○ MS-Excel with pictorial presentation ○ MS-Access ○ MS-Power point Teaching Learning Activities * Lecture Discussion * Demonstration * Practice session	* Short answers * Objective type * Practical Exam
III	2	3	* Demonstrate skill in using multi-media * Identify features of computer aided teaching and testing	* Multimedia; types & uses * Computer aided teaching & testing Teaching Learning Activities * Lecture Discussion * Demonstration	* Short answers * Objective type * Practical Exam and Viva Voce
IV	1	3	* Demonstrate use of internet and Email	* Use of Internet and: e-mail Teaching Learning Activities * Lecture Discussion	* Short answers * Objective type

				* Demonstration * Practice session	* Practical Exam and Viva Voce
V	2	2	* Describe and use the statistical packages	* Statistical packages: types and their features Teaching Learning Activities * Lecture Discussion * Demonstration * Practice session	* Short answers * Objective type * Practical Exam and Viva Voce
VI	1	2	* Describe the use of Hospital Management System	* Hospital Management System: Types and uses Teaching Learning Activities * Lecture Discussion * Demonstration	* Short answers * Objective type * Practical Exam and Viva Voce

Scheme of Examination

- **Theory**

Nursing Foundations, Psychology, Microbiology, English and Introduction to Computer

There shall be one paper of three hours duration carrying 100 marks for each of the subjects mentioned above.

Table 6(E): Distribution of Type of Questions and Marks for Nursing Foundations, Psychology, Microbiology, English and Introduction to Computer* (100 marks for each subject)

Type of Questions	No. of Questions	Marks	Sub-total
Long Essay (LE)	2	10	20
Short Essay (SE)	10	5	50
Short Answer (SA)	10	3	30
Total Marks			100

****Examination for Introduction to Computer to be conducted as college examination and marks to be sent to the University for inclusion in the marks sheet***

.

- **Practical and Viva-voce Examination.**

Practical and Viva-voce examination shall be held for Nursing Foundations subject only. Marks for university examination shall be 100 marks. Assessment methods shall be as given in the text of Nursing Foundations Practical.

Sociology

Placement : Second Year
Time: Theory 60 Hours

Course Description : This course is designed to introduce the concepts of sociology related to community and social institutions in India and its relationship with health, illness and nursing.

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activity
I	1	* State the importance of sociology in Nursing	Introduction * Definition of Sociology * Nature and Scope of the discipline * Importance and application of Sociology in Nursing Teaching Learning Activity * Lecture Discussion
II	3	* Describe the inter-relationship of individual in society and community	Individual and Society * Society and Community * Nature of Society * Difference between Society and Community * Process of Socialization and individualization * Personal disorganization Teaching Learning Activity * Lecture Discussion
III	3	*Describe the influence of culture and disease	Culture * Nature of culture * Evolution of culture * Diversity and uniformity of culture * Culture and socialization * Transcultural society * Influence on health and disease Teaching Learning Activity * Lecture Discussion * Panel Discussion
IV	4	*Identify various social groups and their interactions	Social groups and processes * The meaning and classification of groups * Primary & Secondary group * In-group V/s. Out-group, class tribe, caste * Economic, Political, Religious, groups, Mob, Crowd, Public and Audience Interaction & Social Processes * Co-operation, Competition, Conflict * Accommodation, Assimilation & Isolation Teaching Learning Activity * Lecture Discussion

V	6	* Explain the growth of population in India and its impact on health	Population * Society and population * Population distribution in India Demographic characteristics * Malthusian theory of Populations * Population explosion in India and its impact on health status * Family welfare programmes <i>Teaching Learning Activity</i> * Lecture Discussion * Community identification
VI	5	* Describe the Institutions of family and marriage in India	Family and Marriage * Family – functions * Types – Joint, Nuclear, blended and extended family: characteristics * The modern family changes, problems – dowry etc, welfare services * Changes and legislations on family and marriage in India – Marriage acts * Marriage: forms and functions of marriage * Marriage and family problems in India * Family, Marriage and their influence on health and health practices <i>Teaching Learning Activity</i> * Lecture Discussion * Family case study
VII	7	* Describe the class and caste system and their influence on health and health practices	Social stratification * Meaning and types of social stratification * The Indian caste system-origin and features * Features of caste in India today * Social class system and status * Social Mobility –Meaning & types * Race as a biological concept, criteria of racial classification * Salient features of Primary races-Racism * Influence of Class, Caste and Race on health and health practices <i>Teaching Learning Activity</i> * Lecture Discussion * Community survey
VIII	6	* Describe the types of communities in India, their practices and the impact on health	Types of Communities in India (Rural, Urban and Regional) * Features of village community and characteristics of Indian villages Panchayat system, social dynamics * Community Development project & planning * Changes in Indian Rural life * Availability of health facilities in rural and its impact on health and health practices

			<ul style="list-style-type: none"> * Urban–Community – features * The growth of cities: urbanization and its impact on health and health practices * Major Urban problems – Urban Slums * Region: Problems and impact on Health <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion * Visits to rural and urban community * Community survey
IX	4	* Explain the process of Social Change	<p>Social Change</p> <ul style="list-style-type: none"> * Nature and process of social change * Factors influencing Social change: cultural change, Cultural lag. * Introduction to Theories of social change: :Linear, Cyclical, Marxian, Functional Role of nurse-Change agents <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion
X	2	* Describe the Social system and inter-relationship of social organizations	<p>Social Organization and Social System</p> <ul style="list-style-type: none"> * Social organization: elements, types * Democratic and authoritarian modes of participation * Voluntary association * Social system: Definition and Types of social system * Role and Status as structural elements of social system * Inter-relationship of institutions <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion * Observation visits
XI	2	* Explain the nature and process of social control	<p>Social control</p> <ul style="list-style-type: none"> * Nature and process of social control * Political, Legal, Religious, Educational, Economic, Industrial and Technological system, Norms & Values – Folkways & Mores Customs, Laws and fashion Role of Nurse <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion * Community survey
XII		* Describe the role of the nurse in dealing with social	<p>Social Problems</p> <ul style="list-style-type: none"> * Social disorganization * Control & planning: poverty, housing, illiteracy, food supplies, prostitution, rights of women & children, vulnerable groups: Elderly, handicapped,

		problems in India	minority groups and other marginalized groups, child labour, child abuse, delinquency and crime, substance abuse, HIV/Aids * Social welfare programmes in India Role of Nurse <i>Teaching Learning Activity</i> * Lecture Discussion * Institutional visits
--	--	-------------------	--

Scheme of University Examination: Sociology

Section A – Pathology

Placement : Second Year

Time : Theory – 45 hours

Course Description : This course is designed to enable students to acquire knowledge of pathology of various disease conditions and apply this knowledge in practice of nursing.

Unit	Time (Hrs)		Objectives	Content and Teaching Learning Methods
	Th.	Pr.		
I	3		<ul style="list-style-type: none"> Define the common terms used in pathology Appreciate the deviations from normal to abnormal structure and functions of the body system 	<ul style="list-style-type: none"> Introduction <ul style="list-style-type: none"> Importance of the study of pathology Definition of terms Methods and techniques Cellular and Tissue changes Infiltration and regeneration Inflammations and Infections Wound healing Vascular changes Cellular growth, Neoplasms <ul style="list-style-type: none"> Normal and Cancer cell Benign and Malignant growths In situ carcinoma Disturbances of fluid and electrolyte imbalance <p><i>Teaching learning Activities</i></p> <ul style="list-style-type: none"> Lecture Discussion Explain using charts
II	10	5	<ul style="list-style-type: none"> Explain Pathological changes in disease conditions of various systems 	<p>Special pathology</p> <ul style="list-style-type: none"> Pathological changes in disease conditions of various systems: Respiratory tract <ul style="list-style-type: none"> Tuberculosis, Bronchitis, Pleural effusion and pneumonia Lung abscess, emphysema, bronchiectasis Bronchial asthma, Chronic obstructive Pulmonary disease and tumours
				<ul style="list-style-type: none"> Cardio-vascular system <ul style="list-style-type: none"> Pericardial effusion Rheumatic heart disease Infective endocarditis, atherosclerosis Ischemia, infarction & aneurysm Gastro Intestinal Tract <ul style="list-style-type: none"> Peptic ulcer, typhoid Carcinoma of GI tract-buccal, Esophageal, Gastric & intestinal Liver, Gall bladder & pancreas <ul style="list-style-type: none"> Hepatitis, Chronic liver abscess, cirrhosis

			<ul style="list-style-type: none"> ❑ Tumours of liver, gall bladder and pancreas, ❑ Cholecystitis • Kidneys & Urinary tract ❑ Glomerulonephritis, pyelonephritis ❑ Calculi, renal failure, renal carcinoma & cystitis • Male genital systems ❑ Cryptorchidism, testicular atrophy ❑ Prostatic hyperplasia, carcinoma Penis & prostate • Female genital system ❑ Fibroids ❑ Carcinoma cervix and Endometrium ❑ Vesicular mole, choriocarcinoma ❑ Ectopic gestation ❑ Ovarian cyst & tumours • Cancer Breast • Central Nervous system ❑ Hydrocephalus, Meningitis, encephalitis, ❑ Vascular disorders – thrombosis, embolism ❑ Stroke, paraplegia, quadriplegia ❑ Tumours, meningiomas-gliomas • Metastatic tumour • Skeletal system ❑ Bone healing, osteoporosis, osteomyelitis • Arthritis & tumours <p>Teaching learning Activities</p> <ul style="list-style-type: none"> • Lecture Discussion • Explain using charts, slides, specimen, X-rays and scans • Visit to Pathology lab, endoscopy unit and OT
III	4	3	<ul style="list-style-type: none"> • Describe various laboratory tests in assessment and monitoring of disease conditions <p>Clinical pathology</p> <ul style="list-style-type: none"> • Various blood and bone marrow tests in assessment and monitoring of disease conditions ❑ Hemoglobin ❑ RBC, White cell & platelet counts ❑ Bleeding time, clotting time and prothrombine time ❑ Blood grouping and cross matching ❑ Blood chemistry ❑ Blood culture ❑ Serological and immunological tests ❑ Other blood tests ❑ Examination of Bone marrow ❑ Methods of collection of blood specimen for various clinical pathology, biochemistry, microbiology tests, inference and normal values <p>Teaching learning Activities</p> <ul style="list-style-type: none"> • Lecture Discussion • Demonstration

				<ul style="list-style-type: none"> Visit to Clinical Pathology & Bio-Chemistry lab and Blood bank
IV	2	1	<ul style="list-style-type: none"> Describe the laboratory tests for examination of body cavity fluids, transudates and exudates 	<p>Examination of body cavity fluids, transudates and exudates</p> <ul style="list-style-type: none"> The laboratories tests used in CSF analysis Examination of other body cavity fluids, transudates and exudates –sputum, wound discharge etc Analysis of gastric and duodenal contents Analysis of semen-sperm count, motility and morphology and their importance in infertility Methods of collection of CSF and other cavity fluids specimen for various clinical pathology, biochemistry, microbiology tests, inference and normal values <p>Teaching learning Activities</p> <ul style="list-style-type: none"> Lecture Discussion Demonstration
V	1	1	<ul style="list-style-type: none"> Describe laboratory tests for examination of Urine and faeces 	<p>Urine and faeces</p> <ul style="list-style-type: none"> Urine <ul style="list-style-type: none"> Physical characteristics Analysis Culture and sensitivity Faeces <ul style="list-style-type: none"> Characteristics Stool examination : occult blood, ova, parasite and cyst, reducing substance etc. Methods of collection for various tests, inference and normal values <p>Teaching learning Activities</p> <ul style="list-style-type: none"> Lecture Discussion Demonstration

Section B – Genetics

Placement : Second Year

Time : Theory – 15 hours

Course Description : This course is designed to enable students to acquire understanding of Genetics, its role in causation and management of defects and diseases

Unit	Time (Hrs)	Objectives	Content and Teaching Learning Activities	Teaching Learning Activities
I	3	<ul style="list-style-type: none"> Explain nature, principles and perspectives of heredity 	<p>Introduction :</p> <ul style="list-style-type: none"> Practical application of genetics in Nursing Impact of genetic condition on families Review of cellular division mitosis and meiosis. Characteristics and structure of genes Chromosomes – sex determination Chromosomal aberrations Patterns of inheritance □ Mendalian theory of inheritance □ Multiple allots and blood groups □ Sex linked inheritance □ Mechanism of inheritance □ Errors in transmission (Mutation) <p><i>Teaching learning Activities</i></p> <ul style="list-style-type: none"> Lecture Discussion Explain using charts, slides 	<ul style="list-style-type: none"> Lecture Discussion Explain using charts, slides
II	3	<ul style="list-style-type: none"> Explain Maternal, prenatal and genetic influences on development of defects and diseases 	<p>Maternal, prenatal and genetic influences on development of defects and diseases</p> <ul style="list-style-type: none"> Conditions affecting the mother : genetic and infections Consanguinity atopy Prenatal nutrition and food allergies Maternal Age Maternal drug therapy Prenatal testing and diagnosis Effect of Radiation, drugs and chemicals 	<ul style="list-style-type: none"> Lecture Discussion Explain using charts, slides

			<ul style="list-style-type: none"> • Infertility • Spontaneous abortion • Neural Tube Defects and the role of folic acid in lowering the risks • Down syndrome (Trisomy 21) <p>Teaching learning Activities</p> <ul style="list-style-type: none"> • Lecture Discussion • Explain using charts, slides 	
III	2	<ul style="list-style-type: none"> • Explain the screening methods for genetic defects and diseases in neonates and children 	<p>Genetic testing in the neonates and children</p> <ul style="list-style-type: none"> • Screening for <ul style="list-style-type: none"> □ Congenital abnormalities □ Developmental delay □ Dysmorphism <p>Teaching learning Activities</p> <ul style="list-style-type: none"> • Lecture Discussion • Explain using charts, slides 	<ul style="list-style-type: none"> • Lecture Discussion <ul style="list-style-type: none"> • Explain using charts, slides
IV	2	<ul style="list-style-type: none"> • Identify genetic disorders in adolescents and adults 	<p>Genetic conditions of adolescents and adults</p> <ul style="list-style-type: none"> • Cancer genetics – Familial Cancer • Inborn errors of metabolism • Blood group alleles and haematological disorder • Genetic haemochromatosis • Huntington's disease • Mental illness <p>Teaching learning Activities</p> <ul style="list-style-type: none"> • Lecture Discussion • Explain using charts, slides 	<ul style="list-style-type: none"> • Lecture Discussion <ul style="list-style-type: none"> • Explain using charts, slides
V	5	<ul style="list-style-type: none"> • Describe the role of nurse in genetic services and counselling 	<p>Services related to Genetics</p> <ul style="list-style-type: none"> • Genetic testing • Human genome project • Gene therapy • The Eugenics movement • Genetic Counselling <p>Legal and Ethical issues Role of nurse</p> <p>Teaching learning Activities</p> <ul style="list-style-type: none"> • Lecture Discussion • Explain using charts, slides 	<ul style="list-style-type: none"> • Lecture Discussion <ul style="list-style-type: none"> • Explain using charts, slides

Scheme of University Examination:

- Theory

Pharmacology, Pathology and Genetics,

There shall be one paper of three hours duration carrying 100 marks for the subjects Pharmacology, Pathology and Genetics.

Section A shall be Pharmacology with 50 marks, Section B shall be Pathology with 35 marks and Genetics with 15 marks. The distribution of type of questions and marks shall be as follows:

Table 7(B): Distribution of Type of Questions and Marks for Pharmacology (50 marks)

Type of Questions	No. of Questions	Marks	Sub-total
Long Essay (LE)	1	10	10
Short Essay (SE)	5	5	25
Short Answer (SA)	5	3	15
Total Marks			50

Pathology and Genetics**Table 7 (C): Distribution of Type of Questions and Marks for Pathology (35 marks)**

Type of Questions	No. of Questions	Marks	Sub-total
Long Essay (LE)	-	-	
Short Essay (SE)	4	5	20
Short Answer (SA)	5	3	15
Total Marks			35

Table 7(D): Distribution of Type of Questions and Marks for Genetics (18 marks)

Type of Questions	No. of Questions	Marks	Sub-total
Long Essay (LE)	-	-	-
Short Essay (SE)	-	-	-
Short Answer (SA)	5	3	15
Total Marks			15

No practical examination.

Medical Surgical Nursing

(Adult including Geriatrics) – I

Placement : Second Year

Time : Theory – 210 hours

Practical – 720 hours

Course Description : The purpose of this course is to acquire knowledge and develop proficiency in caring for patients with medical and surgical disorders in varieties of health care settings and at home.

Unit	Time (Hrs)	Learning Objectives	Content and Teaching Learning Activities
I	15	<ul style="list-style-type: none"> Appreciate the trends in medical and surgical nursing Describe the role of nurse in caring for adult patient in hospital and community Describe the concepts of medical surgical asepsis 	<p>Introduction :</p> <ul style="list-style-type: none"> Introduction to medical surgical nursing – Evolution and trends of medical and surgical nursing Review of Concepts of Health and illness Disease - concepts, causations, classification diseases (ICD -10 or later version), Acute illness Chronic illness & Terminal illness, stages of illness Review of concepts of comprehensive nursing care in medical surgical conditions based on nursing process Role of nurse, patient and family in care of adult patient Role and responsibilities of a nurse in medical surgical settings : <ul style="list-style-type: none"> <input type="checkbox"/> Outpatient department <input type="checkbox"/> In-patient unit <input type="checkbox"/> Intensive care unit <input type="checkbox"/> Home and Community settings <ul style="list-style-type: none"> Introduction to Medical Surgical asepsis <input type="checkbox"/> Inflammation & Infection <input type="checkbox"/> Immunity <input type="checkbox"/> Wound healing Care of Surgical Patient <input type="checkbox"/> Pre-operative <input type="checkbox"/> Intra operative <input type="checkbox"/> Post operative <p>Teaching Learning Activities</p> <ul style="list-style-type: none"> Lecture Discussion <ul style="list-style-type: none"> Demonstration Practice session Supervised clinical practice
II	15	<ul style="list-style-type: none"> Describe the common signs, symptoms, 	<p>Common signs and symptoms and management</p> <ul style="list-style-type: none"> Fluid and electrolyte imbalance Vomitting

		<p>problems and their</p> <ul style="list-style-type: none"> • Specific nursing interventions 	<ul style="list-style-type: none"> • Dyspnea and cough, respiratory obstruction • Fever • Shock • Unconsciousness, Syncope • Pain • Incontinence • Edema • Age related problems – geriatric <p>Teaching Learning Activities</p> <ul style="list-style-type: none"> • Lecture Discussion <ul style="list-style-type: none"> • Seminar • Case discussion

Midwifery and Obstetrical Nursing

Placement : Third Year
Time : Theory - 90 hours
Practical - 180 hours

Course Description : This course is designed for students to appreciate the concepts and principles of midwifery and obstetrical nursing. It helps them to acquire knowledge and skills in rendering nursing care to normal and high risk pregnant women during antenatal, natal and post natal periods in hospitals and community settings. It also helps to develop skills in managing normal & high risk neonates & participate in family welfare programme.

Unit	Time (Hrs)	Learning Objective	Content and Teaching Learning Activities

Placement: Clinical Training

Time: 4 Weeks

Area	Duration	Objectives	Skills	Assessment
Urban	4 Weeks	<div>* Provide comprehensive care to individual, family and community</div>	<div>* Integrated Practice and group project – 1 in each rural and urban</div>	<div>* Assess clinical performance with rating scale</div> <div>* Evaluation of project</div>

Note: During the Rural Posting they should stay in Health centers under the supervision of teachers.

Scheme of University Examination for Community Health Nursing

Theory

There shall be one theory paper of three hours duration carrying 100 marks. Distribution of type of questions and marks for Community Health Nursing shall be as given under.

Table 9(A): Distribution of Type of Questions and Marks for Community Health Nursing

Type of Questions	No. of Questions	Marks	Sub-total
Long Essay (LE)	2	10	20
Short Essay (SE)	10	5	50
Short Answer (SA)	10	3	30
Total Marks			100

Practical and Viva Voce

	Internal Assessment	University Examination	Total
Community Health Nursing	50	50	100

Nursing Research and Statistics

Placement: Fourth Year
Time: Theory – 45 Hours

Clinical Training
Practical – 45 Hours

Course Description: The course is designed to enable students to develop and understanding of basic concepts of research, research process and statistics. It is further, structured to conduct/participate in need based research studies in various settings and utilize the research findings to provide quality nursing care. The hours for Practical will be utilized for conducting Individual / group research project.

Unit	Time (Hrs)	Learning Objectives	Contents and Teaching Learning Activity
I	4	* Describe the concept of research, terms, need and areas of research in Nursing * Explain the steps of research process	Research and Research Process * Introduction and need for Nursing research * Definition of Research & nursing research * Steps of scientific method * Characteristics of good research * Steps of Research process-overview <i>Teaching Learning Activity</i> * Lecture discussion * Narrate steps of research process followed from examples of published studies
II	3	* Identify and state the research problem and objectives	Research problem / question * Identification of problem area * Problem statement * Criteria of a good research problem * Writing objectives <i>Teaching Learning Activity</i> * Lecture discussion * Exercise on writing statement of problem and objectives
III	3	* Review the related literature	Review of Literature * Location * Sources * On line search; CINHAL, COCHRANE etc * Purposes * Method of review <i>Teaching Learning Activity</i> * Lecture discussion * Exercise on reviewing one research report/article for a selected research problem * Prepare annotated bibliography
IV	4	* Describe the research approaches	Research approaches and designs * Historical, survey and experimental

		and designs	<p>* Qualitative and quantitative designs</p> <p>Teaching Learning Activity</p> <p>* Lecture discussion</p> <p>* Explain types of research approaches used from examples of published and unpublished research studies with rationale</p>
V	8	<p>* Explain the sampling process</p> <p>* Describe the methods of data collection</p>	<p>Sampling and Data Collection</p> <p>* Definition of population, sample, sampling criteria, factors influencing sampling process, types of sampling techniques</p> <p>* Data – why, what, from, whom, when, where to collect</p> <p>* Data collection methods and instruments:</p> <ul style="list-style-type: none"> ○ Methods of data collection ○ Questioning, interviewing ○ Observations, record analysis and measurements ○ Types of instruments ○ Validity and reliability of the instrument ○ Pilot study ○ Data collection procedure <p>Teaching Learning Activity</p> <p>* Lecture discussion</p> <p>* Reading assignment on examples of data collection tools</p> <p>* Preparation of sample data collection tools</p> <p>* Conduct group research project</p>
VI	4	* Analyze, interpret and summarize the research data	<p>Analysis of data:</p> <p>* Compilation, Tabulation, classification, summarization, presentation, interpretation of data</p> <p>Teaching Learning Activity</p> <p>* Lecture discussion</p> <p>* Preparation of sample tables</p>
VII	15	<p>* Explain the use of statistics, scales of measurement and graphical presentation of data</p> <p>* Describe the measures of central tendency and variability and methods of correlation.</p>	<p>Introduction to statistics</p> <p>* Definition, use of statistics, scales of measurement</p> <p>* Frequency distribution and graphical presentation of India</p> <p>* Mean, Median, Mode, Standard deviation</p> <p>* Normal probability and tests of significance.</p> <p>* Co-efficient of correlation</p> <p>* Statistical packages and its application</p> <p>Teaching Learning Activity</p> <p>* Lecture discussion</p> <p>* Practice on graphical presentation</p> <p>* Practice on computation of measures of central tendency, variability and correlation</p>
VIII	4	* Communicate and utilize the research	<p>Communication and Utilization of Research</p> <p>* Communication of Research findings</p>

		findings	<ul style="list-style-type: none">o Verbal reporto Writing research reporto Writing scientific article/paper- Critical review of published research- Utilization of research findings <p>Teaching Learning Activity</p> <ul style="list-style-type: none">* Lecture discussion* Read / presentations of a sample published / unpublished research report* Writing group research project

No Practical examination.

Management of Nursing Services and Education

Placement: Fourth Year
Time: Theory - 90 Hours

Course Description: This course is designed to enable students to acquire understanding of management of clinical and community health nursing services, nursing educational programmes. This is also designed to enable students to acquire understanding of the professional responsibilities, prospects and contribution to the growth of the profession.

Unit	Time (Hrs)		Learning Objectives	Content and Teaching Learning Activities
	Th	Pr		
I	4		* Explain the principles and functions of management	Introduction to management in nursing * Definition, concepts and theories * Functions of management * Principles of Management * Role of Nurse as a manager Teaching Learning Activities * Lecture Discussion * Explain using organization chart
II	5		* Describe the elements and process of management	Management Process * Planning: mission, philosophy, objectives, operational plan * Staffing: Philosophy, staffing study, norms, activities, patient, classification systems, scheduling * Human resource management; recruiting, selecting, deployment, retaining, promoting, super annuation etc * Budgeting: concept, principles, types, cost benefit analysis, audit * Material management: equipment and supplies * Directing process (Leading) * Controlling: Quality management * program Evaluation Review Technique (PERT) , Bench marking, Activity Plan (Gantt Chart), Teaching Learning Activities * Lecture Discussion * Simulated Exercises * Case studies
III	8	20	* Describe the Management of nursing services in the hospital and community	Management of nursing services in the hospital and Community * Planning: <ul style="list-style-type: none">○ Hospital and patient care units including ward management○ Emergency and disaster management

			<ul style="list-style-type: none"> * Human resource management: <ul style="list-style-type: none"> ○ Recruiting, selecting, deployment, retaining, promoting, superannuation etc. ○ Categories of nursing personnel including job description of all levels ○ Patient /population classification systems ○ Patients/population assignment and Nursing care responsibilities ○ Staff development and welfare * Budgeting: proposal, projecting requirements for staff, equipments and supplies for <ul style="list-style-type: none"> ○ Hospital and patient care units ○ Emergency and disaster management * Material Management; procurement, inventory control, auditing and maintenance in <ul style="list-style-type: none"> ○ Hospital and patient care units ○ Emergency and disaster management * Directing and leading: delegation, participatory management <ul style="list-style-type: none"> ○ Assignments, rotations, delegations ○ Supervision & guidance ○ Implement standards, policies, procedures and practices ○ Staff development and welfare ○ Maintenance of discipline * Controlling / Evaluation: <ul style="list-style-type: none"> ○ Nursing Rounds/visits, Nursing protocols, Manuals ○ Quality Assurance Model, documentation- ○ Records and report <p>Performance appraisal</p> <p><i>Teaching Learning Activity</i></p> <ul style="list-style-type: none"> * Lecture Discussion * Demonstra-tion * Simulated Exercises * Case studies * Supervised practice in ward-writing indents, preparing duty roaster, ward supervision * Assignment on duties and responsibilities of ward sister * Writing report * Assessment of the assignments * Performance evaluation by ward sister with rating scale
IV	5	* Describe the concepts, theories and techniques of Organizational behaviour and	<p>Organizational behaviour and human relations</p> <ul style="list-style-type: none"> * Concepts and theories of organizational behaviours * Review of Channels of communication * Leadership styles * Review of Motivation; concepts and theories

			human relations	<ul style="list-style-type: none"> * Group dynamics * Techniques of; <ul style="list-style-type: none"> ○ Communication; and ○ Interpersonal relationships ○ Human relations; * Public relations in context of nursing * Relations with professional associations and employee unions and Collective bargaining <p><i>Teaching Learning Activity</i></p> <ul style="list-style-type: none"> * Lecture Discussion * Role plays * Group games * Self assessment * Case discussion * Practice Session * Assessment of problem solving
V	5	5	* Participate in planning and organizing in service education program	<p>In Service education</p> <ul style="list-style-type: none"> * Nature & scope of in -service education program, * Organization of in-service education * Principles of adult learning, * Planning for in-service education program, techniques, methods and evaluation of staff education program. * Preparation of report <p><i>Teaching Learning Activity</i></p> <ul style="list-style-type: none"> * Lecture Discussion * Plan and conduct an educational session for in service nursing personnel * Assess the planning & conduct of the educational session
VI	10		* Describe management of Nursing education institutions	<p>Management of nursing educational institutions</p> <ul style="list-style-type: none"> * Establishment of Nursing educational institution-INC norms and guidelines * Co-ordination with- <ul style="list-style-type: none"> ○ Regulatory bodies ○ Accreditation ○ Affiliation - Philosophy/objectives - Organization ○ Structure ○ Committees - Physical facilities ○ College/School ○ Hostel - Students <ul style="list-style-type: none"> ▪ Selection ▪ Admission

			<ul style="list-style-type: none"> ▪ Guidance and Counseling ▪ Maintaining discipline - Faculty and staff ○ Selection ○ Recruitment ○ Job description ○ Placement ○ Performance appraisal ○ Development and welfare • Budgeting • Equipments and supplies: audio visual equipments, laboratory equipment, books, journals etc. • Curriculum; Planning, implementation and evaluation, • Clinical facilities • Transport facilities • Institutional Records and reports – Administrative, faculty, staff and students. <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion * Role plays * Counseling session * Group Exercises
VII	10	<p>* Describe the ethical and legal responsibilities of a professional nurse.</p> <p>* Explain the nursing practice standards</p>	<p>Nursing as a Profession</p> <ul style="list-style-type: none"> * Nursing as a profession <ul style="list-style-type: none"> ○ Philosophy; nursing practice ○ Aims and objectives ○ Characteristics of a professional nurse ○ Regulatory bodies; INC, SNC Acts; - Constitution, functions ○ Current trends and issues in Nursing * Professional ethics <ul style="list-style-type: none"> ○ Code of ethics; INC, ICN ○ Code of professional conduct; INC, ICN * Practice standards for Nursing; INC * Consumer protection Act * Legal aspects in Nursing <ul style="list-style-type: none"> ○ Legal terms related to practice; registration and licensing ○ Laws related to Nursing practice, Breach and Penalties ○ Malpractice and negligence <p>Teaching Learning Activity</p> <ul style="list-style-type: none"> * Lecture Discussion * Case discussion * Panel discussion * Role plays * Critical incidents

				<ul style="list-style-type: none">* Visit to INC/SNRCs* Assessment of critical incidents
VIII	3		<ul style="list-style-type: none">* Explain the various opportunities for professional advancement	<p>Professional Advancement:</p> <ul style="list-style-type: none">* Continuing education* Career opportunities* Collective bargaining* Membership with professional organization; National and International* Participation in research activities* Publications; Journals, newspapers etc. <p>Teaching Learning Activity</p> <ul style="list-style-type: none">* Lecture Discussion* Review / Presentation of published articles* Group work on maintenance of bulletin board.

ANNEXURE - I

BIO-MEDICAL WASTE MANAGEMENT

WASTE CATEGORY NO.	WASTE CATEGORY TYPE	TREATMENT & DISPOSAL OPTIONS	SUBJECT/YEAR OF STUDY
Category No. 1	Animal Waste : (Animal tissues, organs, body parts, carcasses, bleeding parts, fluid, blood and experimental animals used in research, waste generated by veterinary hospitals; colleges, discharge from	Incineration @ /deep burial*	<u>II year</u> Unit III Community Health nursing - 1 hr.

	hospitals; animal houses.		
Category No. 2	<u>Microbiology & Biotechnology waste:</u> (Waste from laboratory cultures, stocks of specimens of micro-organisms live or attenuated vaccines, human and animal cell cultures used in research and infectious agents from research and industrial laboratories, wastes from production of biological, toxins, dishes and devices used for transfer of cultures.)	Local autoclaving / micro waving / incineration [@]	<u>I year</u> Unit IV Microbiology – 1 hr.
Category No. 3	<u>Waste Sharps:</u> (Needles, syringes, scaples, blades, glass etc. that may cause puncture and cuts. This includes both used and unused sharps.)	Disinfection (Chemical treatment / # autoclaving/ micro waving and mutilation/ shredding **	<u>I Year</u> Nursing Foundation – 1 hr. Unit – III
Category No. 4	<u>Discarded Medicines and Cytotoxic Drugs :</u> (Wastes comprising of outdated, contaminated and discarded medicines)	Incineration [@] / destruction and drugs disposal in secured landfills	<u>I year</u> Nursing Foundation – 1 hr. Unit- III
Category No. 5	<u>Soiled Waste:</u> (items contaminated with blood and body fluids including cotton, dressings, soiled plaster casts, liners, bleedings and other material contaminated with blood)	Incineration @ autoclaving/ micro waving	<u>I Year</u> Nursing Foundation – 1 hr. Unit- III
Category No. 6	<u>Liquid Waste :</u> (Waste generated from laboratory and washing, cleaning, housekeeping and disinfecting activities)	Disinfection by chemical treatment and discharge into drains	<u>I Year)</u> Biochemistry and Biophysics – 1 hr. Unit III
Category No. 7	<u>Chemical Waste :</u> (Chemicals used in production of biological, chemicals used in disinfection, as insecticides etc.)	Chemical treatment and discharge into drains for liquids and secured landfill for solids.	<u>I Year</u> Biochemistry and Biophysics – 1 hr. Unit III

--	--	--	--

- # Chemical treatment using at least 1% hypo chloride solution or any other equivalent chemical reagent. It must be ensured that chemical treatment ensures disinfection.
- ** Mutilation / shredding must be such so as to prevent unauthorized reuse.
- @ There will be no chemical pretreatment before incineration. Chlorinated plastics shall not be incinerated.
- * Deep burial shall be an option available only in towns with population less than five lakhs and in rural areas.

1 b) COLOUR CODING AND TYPE OF CONTAINER FOR DISPOSAL OF BIOMEDICAL WASTES

Colour Coding	Type of Container	Waste Category	Treatment Options
Yellow	Plastic bag	Cat. 1, Cat. 2 and Cat. 5	Incineration/ deep burial
Red	Disinfected container/ Plastic bag	Cat. 2 and Cat. 5	Autoclaving/ Micro waving and chemical treatment
Blue/ White translucent	Plastic bag/ Puncture proof container	Cat. 3	Autoclaving/ Micro waving /chemical treatment and destruction/ shredding
Black	Plastic bag	Cat. 4 and Cat. 7 (solid)	Disposal in secured landfill

- Waste collection bags for waste types needing incineration shall not be made of chlorinated plastics.
- Categories 6 and 7 (liquid) do not require containers/ bags.
- Category 2 if disinfected locally need not be put in containers/bags.

Examination

Note : One short answer or short essay questions pertaining to the above chapters in their respective subjects may be asked

REQUIREMENTS:

Care Plans	:	5
Demonstration of Physical examination	:	2
Health Talk	:	1

Remarks:

Signature of the teacher B.Sc Nursing Clinical Experience – Evaluation Proforma

NURSING FOUNDATIONS – PRACTICAL

Name:

Ward:

Date:

Total Marks: 25X4 = 100

KEY: 1.Unsatisfactory 2. Satisfactory 3. Good 4. Very Good

S.No		1	2	3	4
1.	1.1 Takes nursing history				
	1.2 Makes observations of patients condition				
	1.3 Identifies the basic health needs\ problems				
	1.4 Priorioise the needs\ problems				
2.	PLANNING				
	2.1 Plans nursing care on the basis of priority				
	2.2 Plans care according to patients Psychosocial needs				
	2.3 Involves patients & family in planning				
	2.4 Plans health teaching for patients				
3.	IMPLEMENTATION				
	3.1 Carries out plans based on priorities				
	3.2 Integrates scientific principles in giving care				
	3.3 Uses technical skill				
	3.4 Maintains accuracy in care				
	3.5 Controls the environment to provide for safety				
	3.6 Demonstrates initiative in implementing nursing care				
	3.7 Records significant information accurately				
	3.8 Communicates significant information to appropriate personnel				
	3.9 Instructs the patient and family related to their learning needs				
4.	EVALUATION				
	4.1 Evaluates with guidance the care given				
	4.2 Modifies the plan as indicated in the evaluation				
5	PROFESIONAL BEHAVIOUR				
	5.1 Grooming				
	5.2 Punctuality				
	5.3 Dependability				
	5.4 Interpersonal relations				
	5.5 Emotional stability				
	5.6 Professional and personal growth

**CLINICAL EVALUATION FORM FOR COMMUNITY HEALTH
NURSING-II**

GROUP & CLASS:

Name of the student:

Duration:

Evaluator:

Date of Submission:

	Good	Fair	Poor	Note done
I. General				
1. Oriented to the allotted community area, population etc.				
2. Knows the responsibilities of Community Health Nurse in health				
3. Able to assess the community, family & individual.				
4. Respects the belief and culture of the people.				
5. Knows to utilize the community resources.				
6. Identifies the risk factors and try to solve them.				
7. Compares the primary health care and National health programmers with in the community.				
II. PHC				
1. Learns the organization set up & function of PHC				
2. Participate as a health team member in providing community health Nursing services.				
3. Participates in training programmers conducted by PHCs.				
III.				
1. Keeps the community health bag-neat, clean & aseptic.				
2. Handles the bag appropriately and scientifically.				
3.Follows safe disposal method				
4. Does home visit				
5. Provided home care as per the need.				
6. Involves members in community activities.				
7. Gives appropriate, planned health teaching.				
8. Brings changes in health practices (EX) Diet, hygiene, exercise etc.
